Abstract: The purpose of this notice is to report the results of this agency's actions for determining which carlines are subject to the marking requirements of the motor vehicle theft prevention standard for the model year 1991 and publish a list of those carlines. The agency has previously published a list of the carlines that were selected as high-theft carlines for prior model years, beginning with the 1987 model year. The list in this notice includes all of the carlines in the previous lines, as well as the new lines that were introduced for the 1991 model year and that have been selected as likely high-theft lines. This notice is revised yearly (each model year).

Significance: Agency Priority

Legal Authority: 45 USC 431; 45 USC 437; PL 100-432

CFR Citation: None

Legal Deadline: Final, Statutory, June 23, 1989.

Abstract: If necessary, rules on the inspection and maintenance of train-activated railroad-highway grade-crossing devices must be issued. An ANPRM announced public hearings and requested comments from the public to assist in evaluating future possible action to enhance public safety at these grade crossings. This rulemaking is significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: PL 100-342, Rail Safety Improvement Act of 1988

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, June 22, 1989.

Abstract: FRA is required to adopt qualification standards for locomotive operators. Major elements that could be included in such standards involve initial training, retraining, performance monitoring, testing and retesting, and general fitness criteria. Issues being explored include the structure of the program to resolve questions of whether a Federal license program or a railroad licensing program meeting Federal criteria will best achieve the statutory intent. Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: This project addressed possible problems of bias and inaccuracy in FRA's railroad data base. Although FRA investigates about 400 accidents a year and receives unsolicited information on a few more accidents, FRA's sole source of information on the great majority of railroad accidents is the railroad company itself. The final rule requires that the railroad provide written notification to any employee whom the railroad alleges to have caused a certain type of accident, informing the employee of the relevant allegations and of his or her right to file an accident statement with FRA. The rule also established the format and filing procedures for such statements. This action was considered significant because of departmental policy.

2309. + AIR QUALITY PROCEDURES FOR USE IN FEDERAL-AID HIGHWAY AND FEDERALLY FUNDED TRANSIT PROGRAMS

Significance: Agency Priority

Legal Authority: 23 USC 109(h); 23 USC 109(j); 23 USC 315; 42 USC 4332; 42 USC 7401; 42 USC 7506

CFR Citation: 23 CFR 770; 49 CFR 623

Legal Deadline: None

Abstract: This regulation was to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation was intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR Part 770. However, the NPRM was withdrawn because bills passed by Congress propose to significantly alter the conformity and highway sanction provisions of the CAA.

Significance: Regulatory Program

Legal Authority: 49 USC 1804

CFR Citation: 49 CFR 171; 49 CFR 173; 49 CFR 177

Abstract: DOT lacks comprehensive data on the number, volume, and other statistics characterizing the transportation of hazardous materials in commerce. Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 298

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for each carrier's on-line passengers. The Department has installed a new traffic and market data system for certificated and foreign air carriers called the T-100 system. This system could be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Significance: Nonsignificant

Legal Authority: 49 USC 1377; 49 USC 1441

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: Historically, the source document for the Passenger Origin-Destination Survey was the auditor's coupon of the ticket. Until recently, these coupons provided all the information that was needed for the Survey. In the last few years, the carriers have begun using trip passes in conjunction with the tickets, thereby eliminating some of the data that is required to be reported in the Survey. Other innovations used by the industry, such as funnel flights and code-sharing, have impacted the Survey and obscured some of the data that is required to be reported, such as change of planes and junction points. This notice of proposed rulemaking will explore whether there are alternative sources for the data and modernize the collection system to keep pace with the industry.

Significance: Regulatory Program

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Recent accidents involving petroleum pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to latent material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all hazardous liquid pipelines that are subject to Part 195. This rulemaking is significant because of substantial public interest in the safety implications.

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1990.

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. Operators would also be required to keep an inventory of pipe and annually report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of congressional and State concerns about the need for appropriate public officials to have pipeline information.

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in section 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air-fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. With deregulation and the proliferation of new air fares in the marketplace, such as business class, these definitions may also be outmoded. The DOT is considering several options for revising these definitions.

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: In a few reported instances, excessive amounts of hydrogen sulfide were introduced into natural gas pipelines. High concentrations of hydrogen sulfide are very detrimental to steel pipelines and extremely toxic. This action examines the need to establish a maximum allowable concentration and other control measures.

2333. LEAKAGE SURVEYS

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Many gas distribution operators look for signs of dying vegetation as a leak survey technique. This technique is not as effective as other available methods, and leaks have occurred in areas found safe by vegetation surveys. This action would require the use of alternative methods to meet the leak survey requirements, where appropriate, and clarify that leakage surveys must be conducted at least at 3-year minimum intervals on cathodically unprotected pipelines that are not electrically surveyed for corrosion.

Significance: Nonsignificant

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: The Federal pipeline safety standards governing hazardous liquid pipelines do not apply to pipelines operated at 20 percent or less of the specified minimum yield strength of the pipe. When the standards were issued in 1969, these pipelines were thought not to pose an unreasonable risk to public safety because of their low operating stress levels. Since then, however, a number of accidents have been reported on low stress level pipelines, particularly involving harm to the environment. This rulemaking action would assess the need to extend the Federal safety standards to cover these low stress level pipelines (except gathering lines), and, if warranted, apply the standards to those pipelines.

Abstract: This proposed action would amend the reporting requirements of 14 CFR Part 234 to require specialized reporting of flights delayed or cancelled due to aircraft mechanical problems. Data on such flights would be reported to the Department but would not be made available for public disclosure. In addition, the proposed rule would clarify the definition of mechanical delays and cancellations, for Part 234 reporting purposes. These amendments will be proposed in response to the findings and recommendations of a recent Inspector General's audit of the on-time disclosure data, and in response to various industry comments on the DOT disclosure rule.

Abstract: Pipelines buried offshore have been involved in accidents with fishing and other vessels. A factor contributing to the accidents is the shallow depths at which the pipelines are buried. To help resolve this problem, this rulemaking will propose that operators remove abandoned lines in water less than 22 feet deep, bury pipelines at least 4 feet deep in water up to 22 feet deep and at least 3 feet in water between 22 and 200 feet deep, and monitor the depth of buried pipelines in water less than 22 feet deep.

CFR Citation: 49 CFR 171; 49 CFR 172; 49 CFR 173; 49 CFR 178; 49 CFR 179

Legal Deadline: None

Abstract: This action will develop performance-oriented packaging standards and hazardous material classification based on the United Nations Committee of Experts on the Transport of Dangerous Goods. Rulemaking also includes former nonsignificant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade. This rulemaking is significant because of substantial public interest and safety implications.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: The Department issued a final rule on the T-100 Reporting System on November 16, 1988 (53 FR 46284). The nonstop segment data and onflight market information reported by the U.S. and foreign air carriers in this system was granted confidentiality for a three-year period. American Airlines filed a petition for rulemaking challenging the

three-year period (Docket 46101). The Department found that the three-year period for international nonstop segment data and on-flight market information was appropriate, but would review the confidentiality period for domestic data (54 FR 31810, August 2, 1989). On January 16, 1990, Alaska Airlines filed a petition for rulemaking, challenging the three-year period as it pertains to U.S. carriers' international data (Docket 46710). This rulemaking proposes to release domestic data immediately after editing and continues the three-year confidentiality period for international data. This rulemaking is considered significant because of substantial public and industry interest.

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Adequate procedures for pipeline operation and maintenance, backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. Also, a few additions and clarifying changes would be made to the hazardous liquid pipeline requirements. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel. A related rulemaking to provide procedures requiring operators to amend operation and maintenance plans, and make operators subject to enforcement sanctions for failure to maintain plans, is entitled Amendment of an Operator's Plans or Procedures (RIN 2137-AE77).

Significance: Agency Priority

Legal Authority: 49 USC 1672(a); 49 USC 2002(c)

CFR Citation: 49 CFR 192; 49 CFR 195

Abstract: Each year a large percentage of gas and hazardous liquid pipeline accidents are caused by excavation damage. Based on existing rules intended to reduce damage to gas pipelines in populated areas, this action would require hazardous liquid pipeline operators to provide damage prevention programs and gas operators would have to expand their programs to cover rural areas. This is a significant action because of the widespread interest in the use of "one-call" programs to prevent damage to buried pipelines.

Significance: Nonsignificant

Legal Authority: 49 USC 1672

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Abstract: The accounting system that underpins the Form 41 Report is based on Generally Accepted Accounting Principles (GAAP) established by the Financial Accounting Standards Board. This board recently amended GAAP reporting disclosure standards by adding a Statement of Cash Flows. The Form 41 Report currently has a Statement of Financial Position. This rule proposes to amend the Form 41 reporting requirements by replacing the Statement of Financial Position with a Statement of Cash Flows, to add airframe serial numbers to the inventory reporting requirements so that age of aircraft can be determined, to increase the revenue levels for grouping carriers for reporting purposes, and to permit the use of telefacsimile for transmitting reports.

Abstract: This correction makes certain revisions to the final rules under Docket HM-126C which amended 49 CFR 171-180 to include new requirements for additional emergency response information on shipping papers and packages, and maintenance of emergency response information on transportation vehicles. The revisions contained in this document do not adversely impact the transportation industry and, in fact, provide regulatory relief.

RSPA is (1) revising the exception for including technical names for hazardous wastes to clarify that it applies only to hazardous wastes correctly described as "Hazardous waste, liquid or solid n.o.s"; (2) providing for limited application of the 24-hour emergency response telephone number for hazardous materials transported only during certain business hours; (3) providing an exception to the requirements for emergency response information when hazardous materials, shipped by vessels originate and terminate outside of the

2377. + PROCEDURES GOVERNING THE EVALUATION OF BIDS FOR THE CARRIAGE OF PREFERRED CARGOES ON SUBSIDIZED VESSELS

Significance: Agency Priority

Legal Authority: 46 USC app 1114(b)

CFR Citation: 46 CFR 381.8

Legal Deadline: None

Abstract: This action would have solicited public comment to assist in evaluating requests received from an operator and another Department that MARAD expand the scope of its procedures concerning evaluation of bids for the carriage of preference cargoes to apply to all types of preference cargo, specifically including civilian purchased preference and military cargoes. Existing procedures apply only to bulk cargoes. While considered significant, this contemplated action is temporarily suspended because maritime procurement procedures are undergoing a comprehensive review.

2378. ● + CARGO PREFERENCE—U.S.-FLAG VESSELS; PROMPT PAYMENT REQUIREMENTS FOR FEDERAL PROGRAM PARTICIPANTS RESPONSIBLE FOR PAYMENT OF OCEAN FREIGHT AMOUNTS TO U.S.-FLAG VESSEL OPERATORS

Significance: Agency Priority

Legal Authority: 46 USC app 1114(b); 46 USC app 1241(b)

CFR Citation: 46 CFR 381

Legal Deadline: None

Abstract: This rule would amend MARAD's cargo preference regulations by making certain requirements on other agencies who administer programs that provide assistance to other countries through the export of agricultural commodities. These requirements would provide that any agency that gives this assistance, financed in whole or in part with Federal funds, would amend its procedures and program documentation to include safeguards for recipient countries to make prompt payment of ocean freight charges to U.S.-flag carriers. This action is considered significant because the subject is of substantial public interest and controversial.

Significance: Nonsignificant

Legal Authority: 46 USC app 1114(b); 46 USC app 1177

CFR Citation: 46 CFR 391

Legal Deadline: None

Abstract: The Maritime Administration and Department of the Treasury are jointly proposing to amend the regulations for determining the tax liability of participants in a Capital Construction Fund (CCF) to give effect to amendments in the Tax Reform Act of 1986 (PL 99-514). This rulemaking is a companion to RIN 2133-AA65, which finalized changes in regulations for administering the CCF, consistent with PL 99-514.

CFR Citation: 46 CFR 221

Legal Deadline: None

Abstract: These interim final regulations amend MARAD's regulations regarding transfers of interests in U.S. documented vessels and approval of vessel mortgagees and trustees pursuant to P.L.100- 710. Publication of an interim final rule permitted implementation of the new law without a hiatus and minimized transitional uncertainty among the corporate and financial communities that are affected. This rulemaking is considered significant because of substantial public interest. In view of comments received to the interim final rule, a new NPRM was published.

Significance: Agency Priority

Legal Authority: 46 USC app 1114(b); 46 USC app 1156

CFR Citation: 46 CFR 250

Legal Deadline: None

Abstract: This action would have established conditions for MARAD approval of tanker vessels over 100,000 dwt built with CDS, for participation in the carriage of Alaskan oil from Alaska to the Panama Canal. It was terminated because there is no longer a need for MARAD to grant waivers to allow temporary operation in the Alaskan oil trade. It was originally considered significant because of the substantial public interest anticipated.

DEPARTMENT OF THE TREASURY

31 CFR Subtitle A, Chs. I and II

Semiannual Agenda

AGENCY: Departmental Offices, Treasury.

ACTION: Semiannual agenda.

SUMMARY: This notice is given pursuant to the requirements of the "Regulatory Flexibility Act" (Pub. L. 96-354, September 19, 1980) and Executive Order 12291, "Federal Regulation" (February 17, 1981), which require the publication of a semiannual agenda of regulations. The semiannual agenda of the Department of the Treasury conforms to the Unified Agenda format developed by the Regulatory Information Service Center (RISC).

FOR FURTHER INFORMATION CONTACT: For additional information about a specific departmental offices' regulation, contact the "agency contact" listed in the specific regulatory action. For general information concerning the agenda, contact Richard S. Carro, Associate General Counsel, Room 1422, 1500 Pennsylvania Avenue NW., Washington, DC 20220, (202) 566-2558, not a toll-free call.

Dated: August 29, 1990.

R. Blair Downing,

Executive Secretary.

CFR Citation: 31 CFR 103

Legal Deadline: None

Abstract: This regulation would require that banks with deposits of over $100 million maintain systems to aggregate currency transactions that, at a minimum, are conducted by or on behalf of account holders at the bank and that affect an account during a business day; and require currency dealers and exchanges (including check cashers) and transmitters of funds, regardless of asset size, to maintain systems and procedures to aggregate currency transactions that are conducted by or on behalf of customers at the financial institution during a business day. The regulation also would require financial institutions that file more than 1,000 Currency Transaction Reports a year to file by use of magnetic media.

Semiannual Agenda

AGENCY: Financial Management Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: This notice is given pursuant to the requirements of the "Regulatory Flexibility Act" (Pub. L. 96-354, September 19, 1980) and Executive Order 12291 (Federal Regulation, February 17, 1981), which require publication of a semiannual agenda of regulations under development or review.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific regulation contained in this agenda, contact the "agency contact" listed in the specific regulatory action.

SUPPLEMENTARY INFORMATION: The proposed regulations are not considered to be major regulations within the meaning of E.O. 12291 and will not have a significant impact on small entities within the meaning of the Regulatory Flexibility Act.

Dated: September 13, 1990.

2396. FEDERAL PAYMENTS MADE THROUGH FINANCIAL INSTITUTIONS BY THE AUTOMATED CLEARING HOUSE METHOD

Significance: Agency Priority

Legal Authority: 5 USC 5525; 12 USC 391; 31 USC 321

CFR Citation: 31 CFR 210

Legal Deadline: None

Abstract: With the increased use and greater capability of the Automated Clearing House (ACH) method for making Government payments, the Financial Management Service (FMS) plans to electronically move more remittance information with Government payments. An addenda record will accompany the payment and will serve as an electronic check stub. FMS proposes to require that financial institutions, as part of posting payments to payees' accounts, also post the remittance information contained in the addenda record. Financial institutions can notify payees by printing the message on the bank statements or by issuing separate notices. The information contained in the addenda record is of key importance to a payee and a financial institution by fulfilling a customer need and providing the information to its customer. The proposed Federal Register Notice of Intent is aimed at eliciting reaction, such as cost, capacity, and potential problems, from the financial industry on required passage of consumer and corporate addendum information.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291 entitled, "Federal Regulation," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive order within the next 6 months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the Federal Register of April 1991.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact" for the regulatory project.

For general information about this general notice, contact Di-Anne Fletcher, Revenue Programs Division, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue NW., Washington, DC 20226, (202) 566-7602.

Issuance

By direction of the Secretary of the Treasury, this general notice reads as set forth below.

Signed: August 17, 1990.

2413. NON-GENERIC DESIGNATIONS OF GRAPE WINE HAVING GEOGRAPHICAL SIGNIFICANCE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.24

Legal Deadline: None

Abstract: This proposal expands the list of names officially recognized under 27 CFR Part 4, as being non-generic for the purposes of labeling and advertising of wine. This proposal is the result of petitions from numerous foreign countries for ATF recognition of non-generic wine designations which, in their view, denote distinctive national products. This proposal is also an outgrowth of one of the commitments made by the United States, in the Exchange of Letters of July 26, 1983, with the Commission of the European Communities, to work within the regulatory framework of 27 CFR Part 4, to prevent erosion of non-generic designations of geographic significance. For practical reasons it is being proposed that only "examples" of non-generic designations be listed in Part 4 while a complete list of all non-generic designations be listed in a new Part 12.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on April 23, 1990 (55 FR 16592) are also included. It is expected that this semiannual agenda will enable the public to be more aware of and allow it to more effectively participate in the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda require a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities" and, therefore, are not subject to the provisions of the Act. Additionally, none of the rules is a major rule as defined by Executive Order 12291. Executive Order 12291 defines a "major rule" as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) a major increase in costs or prices for consumers; individual industries;

Federal, State, or local government agencies; or geographic regions; or

(3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

2416. MINIMUM CAPITAL RATIOS; CAPITAL TREATMENT OF INTANGIBLE ASSETS

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: This advance notice of proposed rulemaking will solicit public comment on the treatment of mortgage servicing rights held by national banks for the purpose of determining capital adequacy. The OCC requests comments on all aspects of this issue. Suggested topics include, but are not limited to: capital limits, recourse, valuation, revocation of mortgage servicing rights, mortgage servicing standards, and treatment of other intangible assets (especially core deposit intangibles). The effect on small entities will be considered in the development of any rulemaking.

2417. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 9

Legal Deadline: None

Abstract: The OCC is proposing to amend 12 CFR 9 to address the conflicts of interest created when a national bank is the trustee to an issue of debt securities and enters into additional banking relationships with the issue or issuer, including, but not limited to, the following: securities underwriter, letter of credit enhancer, originator of loans to collateralize the debt securities, or a commercial credit provider. Such multiple roles may serve to reduce the quality of disinterested services provided to both issuers and investors and further expose the bank and the depositors to significant liabilities if investors or issuers suffer losses as a result of a bank trustee's failure to act in their best interests. To the extent possible, the OCC would like to ensure that national banks do not assume conflicting roles which may become unmanageable if the security goes into default. Although the opportunity for national banks to serve in more than one capacity with respect to a debt security issue is not new, there appears to be an increased interest by national banks to undertake multiple roles. The effect on small entities will be considered in the (cont)

2418. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Legal Deadline: None

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and the OCC concerning banks' loan portfolios, including loans to borrowers in foreign countries experiencing liquidity problems, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the OCC in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The OCC considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the OCC determined it was appropriate to propose the additional requirements as amendments to Part 11 because the OCC believes the proposed requirements will help to clarify the types of disclosures which the OCC, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The proposed rule will also include amendments to update Part 11 to conform with recent amendments by the Securities and Exchange Commission to its Securities Exchange Act Disclosure Rules. Abstract: The OCC is proposing to amend its regulations governing the exercise of fiduciary powers by national banks. The intent of these amendments is twofold: First, the proposed rule is intended to codify recent court decisions regarding collective Individual Retirement Account ("IRA") funds; and second, the proposed rule is intended to liberalize and make less burdensome the requirements of 12 CFR 9.18, regarding the management of collective investment funds by institutions exercising fiduciary powers, in a manner which would preserve appropriate protection for trusts and persons with interests therein. In addition to the codification of recent court decisions that authorize national banks to establish collective IRA funds which are registered with the Securities and Exchange Commission under the Investment Company Act of 1940, the proposal also would authorize the establishment of such registered collective funds whose assets consist of Keogh accounts or any other retirement accounts authorized under sections 401 and 408 of the Internal Revenue Code (26 USC 401 and 408). The proposed rule would also eliminate certain Federal regulatory provisions which (cont)

The proposal would also broaden the authorization for closed-end funds, streamline the approval process for new types of funds, clarify the authorization for investment by funds in variable-amount notes, and clarify the status of certain tax-exempt funds. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 84(b)(1); 12 USC 84(d)(1); 12 USC 93a

CFR Citation: 12 CFR 32.2(d)

Legal Deadline: None

Abstract: This rulemaking will revise the definition of a "contractual commitment to advance funds" in response to comments received on the Temporary Rule on National Bank Lending Limits, at 53 FR 23752 (June 24, 1988). Comments were generally in favor of the temporary rule, but expressed concern about its impact on banks which had not experienced a decline in capital. This revision addresses those concerns through amendment of the definition of a "contractual commitment to advance funds." This action will return to banks some flexibility in monitoring their lending limits and outstanding loan commitments. This regulation will not have a significant economic impact on a substantial number of small entities.

Abstract: The regulation will interpret new statutory lease financing authority provided to national banks by Section 108 of the Competitive Equality Banking Act of 1987 (CEBA), codified at 12 USC 24(10). In addition to addressing national bank lease financing transactions entered under CEBA, the regulation incorporates Interpretive Ruling 7.3400, which addresses national bank lease financing authority previously interpreted as existing under 12 USC 24(7), as the functional equivalent of a loan. This regulation will not have a significant economic impact on a substantial number of small entities.

2436. RECORDKEEPING AND CONFIRMATION REQUIREMENTS FOR SECURITIES TRANSACTIONS

Legal Authority: 12 USC 24; 12 USC 92a

CFR Citation: 12 CFR 12.7

Legal Deadline: None

Abstract: This rulemaking would broaden an exemption from requirements that banks maintain certain records and establish certain written policies and procedures. Under the proposal, the current exemption for banks with an average of less than 200 securities transactions per year is expanded to 1,000 transactions per year. The purpose of broadening the exemption from 200 transactions per year to 1,000 transactions per year is to reduce the regulatory burden on banks of all sizes that engage in a low number of securities transactions per year. Small entities are the primary beneficiaries of this burden-reducing amendment.

Abstract: This regulation amends two interpretive rulings in 12 CFR 7 and promulgates them as regulations in 12 CFR 5. The amendments are needed to revise and clarify certain OCC interpretations of statutes that govern the payment of dividends by national banks (12 USC 56 and 60). The intended effect is to make the calculation of the restrictions on the payment of dividends by national banks consistent with generally accepted accounting principles (GAAP). This final rule will not have a significant economic impact on a substantial number of small entities.

Abstract: This temporary rule amending 12 CFR 5 implements Section 914 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) by adding a new section 5.51. The new section requires certain national banks to file a notice with the OCC prior to adding or replacing a member of the board of directors, and prior to employing or changing the responsibilities of an individual to a position as senior executive officer. The OCC may disapprove any proposed board member or senior executive officer whose service is not considered to be in the best interests of the depositors of the national bank or the public. The regulation will not have a significant economic impact on a substantial number of small entities.

CFR Citation: 12 CFR 25

Legal Deadline: Final, Statutory, July 1, 1990.

Abstract: This rulemaking addresses the disclosure and composition of the written evaluation required under the new section 807 of the Community Reinvestment Act of 1977. This provision requires each Federal depository institution regulatory agency to prepare a written evaluation of the institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods. The mandated written evaluation will contain findings and conclusions pertaining to compliance with existing assessment factors which implement the statute. Additionally, the written evaluation will contain an overall rating judging the institution's CRA performance. These ratings are required to be disclosed to the public on and after July 1, 1990. This regulation will not have a significant economic impact on a substantial number of small entities.

Abstract: This proposed rulemaking will provide notice and an opportunity to comment on an across-the-board assessment increase for all banks regulated by the OCC, and certain changes in the OCC's fees. The fee changes are designed to recover the OCC's costs in connection with selected corporate activities and other functions. The proposed rulemaking will also advise the public of the results and recommendations of the Comprehensive Revenue Study and will seek comments and raise questions for public response regarding these recommendations. Publication of the final rule is expected by December 3, 1990, because 12 CFR 8.8 provides that a "Notice of Comptroller of the Currency Fees" shall be published no later than the first business day in December of each year for all fees that will be charged during the upcoming year. The effect on small entities will be considered in the development of this rulemaking.

CFR Citation: 12 CFR 34

Legal Deadline: NPRM, Statutory, February 9, 1990. Final, Statutory, August 9, 1990.

Abstract: The proposed regulation is being promulgated as mandated by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("Title XI"), P.L. 101-73, 103 Stat. 183, 511. Title XI was enacted to address abuses in the appraisal industry contributing to losses by depository institutions and is designed to protect Federal financial and public policy interests in real estate-related financial transactions by requiring appraisals to be performed in accordance with uniform standards by individuals whose competency has been demonstrated. The regulation implements the minimum appraisal standards required by Title XI and requires compliance with additional appraisal standards as permitted under the statute. The OCC anticipates that this proposal may increase, to some degree, costs of appraisals for borrowers and national banks. However, these increased costs should be more than offset by savings realized from decreased losses attributable to having better information about the value of real estate in federally related transactions. This regulation will not have a significant economic impact on a substantial number of small entities.

Customs Service

Semiannual Agenda

AGENCY: U.S. Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Public Law 96-354, the "Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulation," Customs is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific regulation contained in this agenda, contact the "agency contact" listed in the specific regulatory action.

SUPPLEMENTARY INFORMATION: The projects listed below are not considered to be "major" regulations within the meaning of E.O. 12291 and will not have a significant economic impact on small entities within the meaning of the Regulatory Flexibility Act.

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional, specific statutory authority is indicated as the legal authority for the project.

Dated: August 17, 1990.

Samuel H. Banks,

Assistant Commissioner, Office of Commercial Operations.

Legal Deadline: Final, Statutory, February 17, 1988.
Required by 19 USC 1584 Note

Abstract: Amendment to the Customs Regulations relating to the liability of common carriers to penalties, seizure and forfeiture for unmanifested narcotic drugs or marijuana. The proposed changes would add to the regulations the statutory standard for the highest degree of care and diligence on the part of common carriers in preventing unmanifested drugs and marijuana. It also sets forth specific duties and procedures by which the standard is defined and against which compliance with the standard can be determined. These duties and procedures include such security measures as background investigations of employees, access restrictions to cargo areas, use of lighting in storage areas, and similar measures.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from October 1, 1990, through September 30, 1991. Determinations with respect to the agenda were made as of July 31, 1990. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert Boyer, (202) 566-3935 (not a toll-free call), Regulations Unit, Assistant Chief Counsel (Corporate), Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224. Attention: CC:CORP:T:R.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the Federal Register. The next semiannual agenda of the Internal Revenue Service will be published in the Federal Register in April of 1991.

Description

This semiannual agenda of regulations lists all projects within the Internal Revenue Service (I.R.S.) as of July 31, 1990, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Offices of the Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Financial Institutions and Products), Assistant Chief Counsel (Income Tax and Accounting), Assistant Chief Counsel (Passthroughs & Special Industries), Assistant Chief Counsel (Employee Benefits and Exempt Organizations), Assistant Chief Counsel (Criminal Tax), Assistant Chief Counsel (General Litigation), and Associate Chief Counsel (International), of the Office of Chief Counsel, I.R.S. The following information is provided for each regulation project: The title, priority status; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under Additional Information, there is provided the control number of the project within the Chief Counsel's office and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Fred T. Goldberg, Jr.,

Commissioner of Internal Revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations will modify a requirement of Treas. Reg. section 1.1441-6(c) regarding the time for filing of Form 1001. Section 1.1441-6(a) provides that the withholding rate shall be reduced as may be provided by a treaty with any country. To secure a reduced treaty withholding rate, subsection (c) of the regulation requires the recipient of the income to file Form 1001 (ownership, exemptions, or reduced rate certificate) with the withholding agent. The regulation further provides that each such Form 1001 filed with any withholding agent shall be filed "as soon as practicable". The "as soon as practicable" requirement will be changed to a narrower and more objective time period.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The regulation is intended to permit shipping operators who have established capital construction funds under the Merchant Marine Act of 1936 as amended, to make "qualified withdrawals" from the funds to lease vessels, in addition to the present practice of purchasing vessels. There are no practical alternatives other than purchasing or leasing vessels. The potential costs of leasing are the same as purchasing; no more money than is deposited into a capital construction fund can be used. The owner of a fund can decide whether leasing or purchasing is cheaper. The benefit (purpose) is to permit shipping industry acquisition practices to be consistent with a long-term trend toward vessel acquisition through lease rather than purchase.

Abstract: The income tax regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Abstract: The regulation will provide rules for members of an affiliated group of corporations filing consolidated returns which are reorganized in bankruptcy. The issuance of parent corporation stock in cancellation of subsidiary corporation indebtedness will come within the common law stock-for-debt exception to cancellation of indebtedness income (as limited by Section 108 (e) (8) and Section 108 (e) (10) without resort to a recapitalization analysis (whether deemed or actual). When creditors of more than one bankrupt member of the group receive parent corporation stock, the stock received by all the creditors may be aggregated for purposes of determining whether each ownership change meets the requirements of Section 382 (l) (5). CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations provide rules for electing the employee plan credit under section 48 of the Internal Revenue Code, establishing a tax credit employee stock ownership plan under section 409 of the Internal Revenue Code and providing voting rights to participants of certain defined contribution plans under section 401(a)(22) of the Internal Revenue Code. Further, the regulations provide guidance for determining the applicability of and calculating the assessable penalties relating to tax credit employee stock ownership plans under section 6699 of the Internal Revenue Code. The regulations reorganize and modify the current regulations which are based on section 301(d), (e), and (f) of the Tax Reduction Act of 1975, and provide a single set of rules that would apply to tax credit employee stock ownership plans established under the provisions of the Tax Reduction Act of 1975 and the 1978 Revenue Act.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 512 (a) Internal Revenue Code of 1986; 26 USC 514 (c) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation will address the issue of what constitutes real property acquired by a qualified trust. The guidance provided on this issue will determine the scope of the exception under 26 USC 514(c)(9) for such acquisitions from the term acquisition indebtedness. Under 26 USC 514, the existence of such indebtedness on income producing property gives rise to unrelated debt-financed taxable income. The regulation will also address the issue of the proper allocation method to determine fixed indirect expenses connected with the unrelated trade or business use of an exempt organization's property.

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 provides for a new method of computing the tax on distributions of income accumulated by a trust in prior years. The new method, in effect, determines the tax attributable to an accumulation distribution by averaging the distribution over the number of years during which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiaries' income for 3 of the 5 preceding years. Those 3 years are determined by taking from the 5 preceding years the year with the highest taxable income and the year with the lowest. The fraction of the income included in each of the 3 years is based upon the number of years during which the income is accumulated by the trust. The average yearly additional tax determined by recomputing the tax for the 3 years is then multiplied by the number of years during which the distribution was accumulated. The resulting tax so computed may be offset by a credit for any taxes previously paid by the trust with respect to the accumulated income. (cont)

Legal Deadline: None

Abstract: Grantor trusts would file 1099's or nothing at all with the Service, and provide a statement of earnings deductions and credits to each grantor. This will enable the Service to match the reported income from grantor trusts with the grantor's tax return. Different procedures will be required for trusts with single grantors as opposed to multiple grantors. Corporation grantors will be included. Other considerations will be whether backup withholdings rules apply and whether there is a legal basis for requiring a payor to report income directly to the grantor rather than the trust.

2643. TIERED PARTNERSHIP RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1990

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation will address whether a foreign partner in a tiered partnership arrangement is engaged in a trade or business in the U.S. by virtue of membership in that tiered partnership where the second tier partnership meets the requirements of being in U.S. trade or business. The alternatives are 1) to conclude the foreign partner is engaged in U.S. trade or business because any member of the tiered partnership arrangements is; and 2) to conclude the foreign partner is not engaged in a U.S. trade of business where the first tier partnership is not so engaged. Other considerations include the meaning of "principal place of business" and whether an entity may have more than one, and attribution rules applicable to the entities. A problem with the second alternative is that it arguably gives priority to form over substance, however, there are several methods by which the first alternative could be avoided and their appears to be no policy reason to prefer one form of doing business over another. Furthermore, no additional tax would be collected by following alternative 1.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 876 Internal Revenue Code of 1986; 26 USC 931 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 eliminates the requirement that there be a mirrored system of taxation in Guam and the CNMI, and coordinates the tax system of these possessions and of American Samoa with the U.S. tax system. Guam the CNMI and American Samoa are granted full authority over their own local income tax systems, with respect to income of bona fide residents sourced within or effectively connected with the conduct of a trade or business within any of these possessions. This grant of authority is effective, however, only if and so long as an implementing agreement is in effect between the possession at issue and the United States which provides for elimination of double taxation, prevention of evasion or avoidance of U.S. tax exchange of information and other administrative matters. Regulations are needed to clarify who qualifies as a bona fide resident and to determine sourcing rules.

Abstract: Prior to the Tax Reform Act of 1986, inhabitants of the Virgin Islands satisfied their U.S. tax liability by filing a return with the Virgin Islands. The Tax Reform Act of 1986 repealed the inhabitant rule to correct an erroneous interpretation of its operation in connection with the Virgin Islands mirror code. Section 1274 of the Tax Reform Act of 1986 clarifies the filing obligations of individuals in the Virgin Islands. Bona fide residents of the Virgin Islands are required to file only one return with the Virgin Islands in which they report worldwide income and identify the sources of income from the Virgin Islands will be required to file two identical tax returns one with the US and one with the Virgin Islands and pay a pro rata amount of tax to each. Regulations are needed to clarify who qualifies as a bona fide resident. It is anticipated that the regulations will provide a facts and circumstances test for determining bona fide resident status. It is unknown what the operational costs will be.

2688. CLARIFYING DELETION OF REQUIREMENT OF SECTION 1.1502-47(D)(12) (C) THAT IN APPLYING THE TACKING RULE, PROFIT LIFE ACTIVITIES NOT BE SEPARATED FROM LOSS LIFE ACTIVITIES

Legal Authority: 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502

Legal Deadline: None

Abstract: Section 1.1502-47(d)(12)(C) restricted the separation of profitable life activities from loss life activities to prevent the gaming that otherwise could occur under the "bottom-line" consolidation rule mandated by section 818(f) as in existence prior to the Enactment of the Tax Reform Act of 1984 (TRA 1984), Public Law 98-369. As a result of the new method of taxing life insurance companies enacted in the TRA 1984, the bottom-line consolidation abuse potential is eliminated, thus eliminating the need for section 1.1502-47(d)(12)(C). Removing this provision will remove an unnecessary restraint on transactions, and a potential device to voluntarily deconsolidate.

Abstract: Currently, the information reporting requirements in the Internal Revenue Code and the Income Tax Regulations allow substitute 1099 forms to be furnished to recipients in most instances. The requirements for the substitute forms vary, some allowing "substantially similar" forms or "reasonable facsimiles" while some sections actually require copies of official Forms 1099. In order to standardize the manner in which information is provided to recipients, this project will amend the regulations to require that substitute information reporting statements furnished to payees be identical to official Forms 1099.

Abstract: Legislative changes require that increased numbers of retirees and plan participants must make complex calculations of the taxable amount of distributions they receive from qualified plans. The regulations will require the payor of a qualified plan distribution (or the plan administrator) to calculate the taxable amount and to report it on the appropriate information return. Proposed regulations would also clarify and amend the temporary regulations relating to withholding from pensions, annuities, and other deferred income.

Abstract: The purpose of these regulations is to solve the problem that arose in the case of United States v. Air Florida, Inc. 56 B.R. 732 (S.D. Fla. 1985). The regulations will provide that if a state has adopted a Federal law establishing a place for the filing of liens under a national filing system, the state is not considered to have a second office for filing of the notice of lien. The regulations will also provide that the filing of a notice of Federal tax lien is governed solely by the Internal Revenue Code and is not subject to any other Federal law establishing a national filing system.

Abstract: The regulation will provide guidance in obtaining the issuance of a certificate of release of a notice of Federal tax lien. The regulation will revise existing regulations relating to the size of the exemption from levy available for certain property. The proposed regulation also increases the length of post-sale redemption period currently specified in the regulations. The proposed regulations provide rules for service employees administering the Code for providing notice of intention to levy upon the property of a delinquent taxpayer. The proposed regulations increase the amount of damages allowed where property has been levied wrongfully.

Legal Authority: 26 USC 6332 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6332-1(c)

Abstract: Section 1.6332-1(c) currently provides that any person in possession of or obligated with respect to property or rights to property subject to levy and upon which levy has been made who surrenders the property or rights to property, or discharges the obligation to the district director is discharged from any obligation or liability to the delinquent taxpayer. Section 1015(t) of Technical and Miscellaneous Revenue Act of 1988 amends Section 6332 of the Internal Revenue Code to provide that a person who honors a levy is protected from any obligation or liability to any other person as well as the delinquent taxpayer. This should cause a reduction in the number of interpleader actions filed because of concerns over liability to third parties.

Abstract: To resolve any uncertainty as to how payments to redeem real property sold by the Internal Revenue Service after levy must be made. The present regulations do not state the form in which the redemption price is to be paid. Thus, controversy exists as to whether personal checks or other non-guaranteed forms of payment would be sufficient to constitute tender.

2736. ● ERRONEOUS ALLOWANCE OF INTEREST ON OVERPAYMENTS CREDITED AGAINST CERTAIN UNDERPAYMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Under section 6611(b)(1), if an overpayment is credited against an underpayment, interest on the overpayment runs from the date of the overpayment until the due date of the amount against which the credit is taken. Section 301.6611-1(h)(2)(v) of the regulations provides that in the case of a credit against assessed interest, the due date is the assessment of such interest. Section 301.6611-1(h)(2)(vi) of the regulations provides that in the case of a credit against an amount assessed as an additional amount, addition to the tax or assessable penalty, the due date is the date of assessment. A literal application of these regulations' provisions may give a taxpayer interest where none should be paid. The proposed regulations correct this problem by changing the due dates of interest and certain additions to the tax.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding

TREAS—IRS

Proposed Rule Stage

excess expenses. If the purchaser does not respond within 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully satisfied and released, and all surplus funds returned to the taxpayer.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7426 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The existing language of the regulations under IRC section 7426 is ambiguous and confusing. It has been used in at least one court case as support for the proposition that whenever the Service attempts to seize property of a delinquent taxpayer that is in the custody of a Government agency, regardless of the form of the seizure (i.e. service of a Notice of Levy or of a Request for Setoff), such a seizure is always a setoff, and any third party injured by such a seizure has no cause of action under IRC section 7426. This is not the Service's position. The regulations should be clarified to rectify this misinterpretation.

Legal Authority: 26 USC 7429 Internal Revenue Code of 1986 PL 100-647, Sec 6237; 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.7429

Legal Deadline: None

Abstract: Section 7429 currently provides for administrative and judicial review of jeopardy assessments, but these review procedures do not apply to jeopardy levies. The Technical and Miscellaneous Revenue Act of 1988, PL 100-647, Sec. 6237, extends the review procedures of Section 7429 to the review of jeopardy levies and provides concurrent jurisdiction to the Tax Court with Federal District courts with respect to actions challenging a jeopardy assessment or jeopardy levy, provided a Tax Court petition is filed prior to the making of the assessment or levy. We are examining whether any regulations need to be promulgated under the statutory amendment. In particular, we are examining whether any procedural guidelines for the filing of actions in the Tax Court are needed by means of regulations, or whether revision to Tax Court rules is more appropriate. We are also examining whether the revised review procedures contain any ambiguity for which clarification by way of regulation would be helpful.

Legal Authority: PL 100-647, Sec 6240; 26 USC 7805

CFR Citation: 26 CFR 301.7432 determined

Legal Deadline: None

Abstract: The new section 7432 grants taxpayers the right to bring a cause of action for damages in Federal District court if any officer or employee of the Internal Revenue Service knowingly or negligently fails to release a lien under section 6325 on property of the taxpayer. Damages will not be awarded for failure to release a lien unless the court determines that the taxpayer has exhausted all administrative remedies within the Internal Revenue Service. The Secretary must provide by regulations a reasonable procedure for the taxpayer to notify the Service of a failure to release a lien on property of the taxpayer. Currently, we are considering regulations that will provide procedures for a taxpayer to notify the Service of a failure to release a lien and procedures for administrative exhaustion of remedies.

Abstract: PL 100-647, Sec 6241, adds a new section 7433 to the Internal Revenue Code. This provision allows taxpayers to sue the Internal Revenue Service to recover economic damages if a Service employee, in connection with the collection of a tax, recklessly or intentionally disregards any provision of the Code or regulations. The new implementing regulation will establish administrative remedies for taxpayers to meet the statutory requirement that administrative remedies be exhausted prior to a court award of damages. Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Revenue Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables, revised periodically and the applicable Federal interest rate for the month of the valuation of the interest. The regulations will address the use of the tables, which will be published separately, and will contain rules for making an election where charitable transfers are involved. Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 144 (a) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt industrial development bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved—failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

Significance: Regulatory Program

Legal Authority: 26 USC 336 Internal Revenue Code of 1986; 26 USC 337 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. This project addresses issues related to the operating rules of sections 311, 331, 334, 336, and 337. Additional areas related to GU repeal, such as the scope of the repeal, will be addressed in a specific project.

2826. SCOPE OF GENERAL UTILITIES REPEAL

Legal Authority: 26 USC 337(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, downstream mergers, conversion into tax exempt entities, and cross ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Abstract: Except as provided in regulations, sections 382(b)(3)(A) and (d)(1) of the Internal Revenue Code of 1986 provide for a ratable allocation of income or net operating loss, respectively, for the taxable year that includes the change date. Notice 87-79, 1987-2 C.B. 387, states that regulations will, in certain cases, provide taxpayers with an election to allocate income and loss between the periods ending with and after the change date on the basis of a closing of their books as of the change date (rather than on the basis of a ratable allocation). The purpose of this regulations project is to implement the above mentioned portion of Notice 87-79 and to provide guidance in certain related areas.

Abstract: The temporary regulations under section 382 of the Code require loss corporations to identify their five percent shareholders and any five percent shareholders of the loss corporation's corporate shareholders. Foreign corporations do not always have the ability to identify their five percent shareholders. This project will consider whether the attribution, aggregation, and segregation rules under section 382 should be modified when applied to foreign corporate shareholders of a loss corporation, and whether the Service should substitute a more convenient inquiry for foreign corporate shareholders than the current five percent shareholder identification.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 408 Internal Revenue Code of 1986; PL 98-369, Sec 147

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities (including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 465 Internal Revenue Code of 1986; PL 94-455, Sec 204 Tax Reform Act of 1976

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

2884. ● TAXATION OF SETTLEMENT FUNDS

Significance: Agency Priority

Legal Authority: 26 USC 468B Internal Revenue Code of 1986

CFR Citation: None

Legal Deadline: None

Abstract: Under prior law, if a liability required payment to another person and arose out of tort, the obligor was permitted a deduction only as payments were made to such person. See IRC Section 401(h)(2)(c). The obligor was not permitted to accrue a deduction when it made payment to a settlement fund; rather, it was permitted to accrue a deduction only as payments were made from the settlement fund to the person to which the liability is owed. IRC Section 468B clarifies that under certain limited circumstances a payment to a settlement fund in respect of tort liability is deductible by the obligor. The provision applies only to published payments made to a designated settlement fund. The regulations will address the requirements for a qualified payment of a disputed settlement fund. The regulations will also address the taxation of a designated settlement fund. Under prior law, income earned on amounts deposited in settlement funds were not subject to tax until distribution to the claimants. See Rev. Rul. 71-119, 1979-1 C.B. 103; (cont)

2907. PARTNERSHIP TERMINATION DISTRIBUTIONS

Significance: Agency Priority

Legal Authority: 26 USC 706 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.706-1

Legal Deadline: None

Abstract: In order to prevent the shifting of the tax consequences between partners with respect to pre-contribution gain or loss Congress amended section 704(c) of the Code in the Tax Reform Act of 1984 and again in the Revenue Reconciliation Act of 1989. Treasury believes that in order to fully implement the Congressional intent, the regulations under section 706(b)(1)(B) of the Code need to be amended to insure that the pre-contribution gain or loss is properly accounted for when a partnership liquidates and is reformed. Accordingly, it has been proposed that the regulations under section 706(b)(1)(B) be amended to insure that the pre-contribution gain or loss will be preserved in the liquidation reformation process.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 301

Legal Deadline: None

Abstract: These regulations relate to the withholding on certain items of income subject to a reduced rate of, or exemption from, U.S. tax under an income tax convention to which the United States is a party. These regulations would amend the existing regulations to provide a certification requirement for obtaining reduced rates of, or exemption from, U.S. withholding tax on payments of fixed or determinable annual or periodical income and certain other income.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1441

Legal Deadline: None

Abstract: Section 864 (c) (8) of the Code, added in 1986, had the unintended effect of allowing nonresident alien individuals to elect out of all withholding on pension payments from qualified plans. The regulation corrects this inadvertent loophole and requires withholding on such payments.

Abstract: Provision would amend section 1.1502-3 of the regulations when dealing with the transfer of section 38 property between members of an affiliated group. Currently section 1.1502-3(f)(2) provides that a transfer of section 38 property between members is not a "disposition" within the meaning of section 47 of the Code. The area of concern has been sales of section 38 property outside the group immediately after the transfer. The amendment to section 1.1502-3(f)(2) would incorporate the holding in Rev. Rul. 62-20, 1962-1 C.B. 6 which would require recapture.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32 (T)

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the

amount of the dividend. The problem is caused by a difference in timing of the two events (declaration of dividend and payment of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-13

Abstract: Section 1.1502-13 of the Income Tax Regulations provides the general rule that the term intercompany transaction means a transaction during a consolidated return year between corporations which are members of the same group. Section 1.1502-13 (f) provides as a general rule that deferred gain attributable to a selling member will be triggered when the asset leaves the group. The regulation, in effect, does not deal with a situation where a selling member exchanges property subject to Section 1.1502-13 rules in a nontaxable exchange to an outside party. Moreover, the current regulations do not adequately cover tax free transactions between members. This proposed regulation will provide rules for certain common nontaxable exchanges within the affiliated group.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

3018. PROCEDURE AND ADMINISTRATION REGULATIONS - INCREASED RATE OF INTEREST ON SUBSTANTIAL UNDERPAYMENTS ATTRIBUTABLE TO CERTAIN TAX MOTIVATED TRANSACTIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6621 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The regulations provide guidance to taxpayers subject to the increased rate of interest on substantial underpayments attributable to certain tax motivated transactions. The regulations define tax motivated transaction and accounting methods that may result in a substantial distortion of income. The regulations also provide rules for determining the amount of a tax motivated underpayment and the accrual of interest at the increased rate.

Legal Authority: 26 USC 7605 Internal Revenue Code of 1986; PL 100-647

CFR Citation: 26 CFR 301.7605-1 (a)

Legal Deadline: None

Abstract: The temporary regulations which are cross-referenced in this notice of proposed rulemaking provide guidance as to what is reasonable under the circumstances in the case-by-

case determination as to the time and place of examination. The regulations balance the convenience of the taxpayer with the requirements of sound and efficient tax administration. The regulations provide that it is generally not reasonable for the IRS to require a taxpayer to attend an examination at an IRS office other than the office located closest to the taxpayer's home in that district. They also provide that it is generally not reasonable for the IRS to audit a taxpayer at his or her place of business if the business is so small that so doing will eventually require the taxpayer to close the business.

CFR Citation: 26 CFR 301.7811

Legal Deadline: Final, Statutory, February 8, 1992.
Temporary regulation published as TD 8246 effective February 8, 1989, must be published as final regulations within three years.

Abstract: PL 100-647, section 7811, adds new section 7811 to the Internal Revenue Code. This section provides that upon application filed by a taxpayer with the Ombudsman's office, the Ombudsman may issue a taxpayer assistance order (TAO) upon a determination that a taxpayer is or is about to suffer a significant hardship as the result of how the internal revenue laws are being administered by the service. The temporary regulations discuss the form, manner and time for filing an application for assistance, the terms of a TAO, and the supervision of applicable periods of limitation.

3041. REGULATIONS ON INCOME TAX UNDER THE TAX REFORM ACT OF 1984, RELATING TO BELOW-MARKET LOANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7872 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

Legal Authority: 26 USC 336 Internal Revenue Code of 1986; 26 USC 337 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, Downstream Mergers, conversion into Tax Exempt Entities, and Cross Ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 100-647, Sec 6228 Taxpayer Bill of Rights 102 Stat. 3342

CFR Citation: 26 CFR 301.7605-1(a). (Revision)

Legal Deadline: NPRM, Statutory, November 10, 1989. Final, Statutory, November 10, 1992.

Abstract: Section 7605(a) of the Internal Revenue Code, 26 USC 7605(a), and section 301.7605-1(a) of the regulations currently provide the time and place of an examination shall be fixed by an officer or employee of the Internal Revenue Service and shall be reasonable under the circumstances. No regulations have been promulgated elaborating on this provision. The Taxpayer Bill of Rights requires the publication within one year of regulations enumerating standards for determining whether the selection of a time and place for interviewing a taxpayer is reasonable. These regulations are to provide that if it is generally not reasonable for the IRS to require a taxpayer to attend an

3087. REQUIRED CAPITAL LEVELS FOR SAVINGS ASSOCIATIONS; REGULATORY INTERVENTION

Significance: Regulatory Program

Legal Authority: 12 USC 1464

CFR Citation: 12 CFR 567

Legal Deadline: None

Abstract: The Office is addressing whether to amend the minimum regulatory capital regulations for savings associations to add specific language defining a particular level of capital as an "unsafe and unsound condition to transact business including having substantially insufficient capital" for the purpose of activating the Office's statutory authority to appoint a conservator or receiver. The advance notice of proposed rulemaking set the floor capital requirements at a level of 1.5 percent of total assets, to be held in the form of core equity capital. The Office is currently developing a notice of proposed rulemaking in this area which would also define "insolvency".

3088. REGULATORY CAPITAL REQUIREMENTS FOR SAVINGS ASSOCIATIONS

Significance: Agency Priority

Legal Authority: 12 USC 1464

CFR Citation: 12 CFR 567

Legal Deadline: None

Abstract:

The Office adopted an interim rule amending its regulations concerning minimum capital requirements for all savings associations as required by FIRREA. One purpose of the rule is to ensure that savings associations engaging in higher risk activities are adequately capitalized. The rule includes requirements for minimum levels of tangible, core, and total capital.

In connection with this rule, the Bank Board as predecessor to the Office proposed a description of methodologies to be used in calculating the interest-rate risk component of the rule in the form of an advance supplemental notice of proposed rulemaking. The Office is currently formulating a notice of proposed rulemaking in this area.

Significance: Agency Priority

Legal Authority: 12 USC 1462 et seq; 12 USC 3806

CFR Citation: 12 CFR 563

Legal Deadline: None

Abstract: The Bank Board, as predecessor to the Office, adopted amendments to 12 CFR 563.19 which modified the schedule for calculating the permissible deductible for fidelity bonds and sought comment on whether additional, more substantive revisions to the fidelity bond regulations for all savings associations are necessary.

The Office has since adopted a notice of proposed rulemaking which would substitute required coverage under Standard Form No. 22 with coverage under Standard Form No. 24. The proposal is intended to address the disparity between such requirements for savings associations and those for commercial banks.

CFR Citation: 12 CFR 545; 12 CFR 563

Legal Deadline: None

Abstract: The Office has adopted an interim final rule with request for comment and a final rule concerning loans to one borrower limitations. FIRREA states that section 5200 of the Revised Statutes now applies to savings associations in the same manner and to the same extent as it applies to national banks. It also provides Special Rules which (i) authorize loans for any purpose not to exceed $500,000; and (ii) specify different limits for loans to develop domestic residential housing units and loans to finance the sale of real property acquired in satisfaction of debts previously contracted for in good faith. These new limitations have been implemented through the interim final rule. The final rule restates the provisions of the interim final rule and adds a transition measure to permit a more orderly implementation of the new lending limits.

Abstract: The Office has withdrawn its final regulation governing the release of customer financial records by Federal associations. In conjunction with this withdrawal, the Office intends to propose a new regulation to address the same issue. The final rule which has been withdrawn was adopted effective December 15, 1989. 54 FR 33859 (Aug. 17, 1989). (RIN 3068-AA86 from October 1989 Agenda). The Office determined that withdrawal of the regulation was necessary due to the significant changes in the thrift industry made by FIRREA.

Semiannual Regulatory Agenda

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Department of Veterans Affairs.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs will have under review, development, or revision during the 12-month period from October 1990 to October 1991. The purpose in publishing the Department's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual Department contact listed for each regulation or by writing to: Director, Records Management Service (723), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: Patricia Tatum, (202) 233-3770.

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulation," and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register** in April and October of each year an agenda of regulations under development and review.

The Department of Veterans Affairs has no regulations considered major under the terms of Executive Order 12291; however, all of this Department's proposed rules and current rules under review, except those considered to be internal Department policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB Memorandum dated July 2, 1990.

Dated: August 20, 1990.
By direction of the Secretary.

Edward G. Lewis,

Assistant Secretary for Information Resources Management.

Abstract: 38 USC 3305 prohibits VA from designating any Quality Assurance (QA) program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. These regulations, as amended, govern VA's QA program activities, and records and documents which are made confidential and privileged. VA is proposing reorganization of mandatory HSRO-SIR functions, streamline programmatic QA requirements for medical facilities, elimination of HSRO-SERP and establishment of a VACO external review section, refinement of general regulations designating and describing confidential records and documents, and clarifying outdated language.

Legal Authority: 38 USC 643

CFR Citation: 38 CFR 17.165(c)

Legal Deadline: None

Abstract: New State homes have lost Federal aid payments due to the existing regulatory restriction that payment of Federal aid cannot begin prior to notification of recognition of a State home. There are delays from the inspection of a new State home to the final notification. This is inevitable due to the time required to prepare the recognition letter, assemble background data and route through various VA offices for concurrences. The proposed amendment would delete this restriction and allow VA to provide per diem payments to States after the

recognition inspection has been completed instead of the date of notification of recognition.

Legal Authority: 38 USC 210(c)

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a Department of Veterans Affairs facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any Department of Veterans Affairs facility or any hospital, while being furnished care or treatment therein by VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

Legal Deadline: None

Abstract: 38 USC 3305 prohibits VA from designating any Quality Assurance (QA) program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. Final regulations implementing 38 USC 3305 were made effective October 22, 1982. Those regulations govern VA's QA program activities and records and documents which are made confidential and privileged. Proposed rules amending 38 CFR 17.500-17.534 were issued in the Federal Register on October 27, 1988, and the public comment period ended November 28, 1988. One commenter suggested a change to those regulations that could not be accepted by VA without public comment. Therefore, VA is proposing to reorganize the description of the continuous monitoring functions, streamline programmatic QA requirements for the medical facilities and update requirements according to new standards.

Legal Authority: 38 USC 622(f)(1); 38 USC 612

CFR Citation: 38 CFR 17.48(d)(4); 38 CFR 17.115(a)

Legal Deadline: None

Abstract: The existing means test regulations require VA's Veterans Health Services and Research Administration (VHS&RA) to determine income for means test purposes in the same manner as income is determined for VA pension purposes. VHS&RA is proposing to change its income determination methodology to one that is similar to the method used for VA pension. This change would allow VHS&RA to simulate VA's Veterans Benefits Administration's (VBA's) income determination without having to hire additional staff. The change is a more liberal interpretation of the existing rules for income determination. In addition, during a technical revision to the prosthetic regulations, they were inadvertently substantively changed by deleting authority to provide prosthetic appliances to certain veterans. This error will be corrected.

3118. 1. VETERANS SERVICES OFFICER (VSO) TO SELECT AND APPOINT OR RECOMMEND FOR APPOINTMENT THE PERSON OR LEGAL ENTITY TO RECEIVE BENEFITS IN A FIDUCIARY CAPACITY 2. DIRECT PAYMENT

Legal Authority: 38 USC 3202(a)

CFR Citation: 38 CFR 13.55; 38 CFR 13.56

Legal Deadline: None

Abstract: 38 CFR 13.55 authorizes the VSO to select and appoint a fiduciary and defines the types of payees authorized to receive payments in fiduciary cases. The intended change updates the authority language to more closely reflect changes to 38 USC 3202; removes gender specific terminology and reference to mental illness; and, further clarifies the types of payees available for selection. 38 CFR 13.56 defines classes of beneficiaries who may be paid directly. The intended change clarifies the conditions for direct payment.

Abstract: The Department of Veterans Affairs is proposing to rescind several regulations. These regulations concern the implementation of Title VI, Civil Rights Act of 1964 in the education programs which VA administers. The regulations either conflict with or repeat unnecessarily other regulations which deal with the implementation of that Act. Rescinding these regulations will eliminate any confusion in the public's perception of the way VA is implementing this Act.

Abstract: A number of regulatory changes will be proposed for the VA manufactured home loan program. VA would conform to HUD's practices on certifications, invoicing and volume rebates. Lenders would be permitted to file claims upon receipt of the VA's resale price and thereafter retain the profit or loss which results from subsequent sale of the home. Broader insurance coverage would be required to cover missing items at repossession. Actual freight costs would be allowed in the invoice, and the amounts and items which could be included in the loan would be revised.

Abstract: The Department of Veterans Affairs may grant lenders the authority to process loans on the automatic basis if they meet requirements set by VA. Currently these requirements are published in administrative issues with release to program participants. The proposed regulations will place the requirements in regulatory form to ensure proper notice. The requirements will include minimums for such items as working capital, experience of the firm and/or principal officers and its underwriters. These regulations will apply to lenders such as mortgage bankers who are not already under supervision by State or Federal entities. These regulations will also prescribe standards and procedures for withdrawal of the automatic processing authority.

Abstract: Regulations allow the veteran obtaining a Department of Veterans Affairs guaranteed loan to pay the lender making the loan a one percent origination fee to cover the processing of the loan. Any other discount points required by the lender are to be paid by someone other than the veteran except in those cases where it is specifically allowed, such as refinancing loans. This regulation would clarify the instances in which a veteran may or may not pay discount points. This regulation change would also clarify that discount points may not be paid by the veteran (except when specifically allowed) to anyone, including the lender, seller or other concerned party.

Abstract: Federally appointed fiduciaries are not required, except under very specific circumstances, to divulge non-VA income and assets belonging to the incompetent beneficiary. It is difficult to assess whether the fiduciary is using the beneficiary's VA assets appropriately unless placed in the context of total income and assets available. The purpose of these changes is to lessen the potential for fraud, waste and abuse. 38 CFR 13.58(b)(2) and 13.59(a) detail the responsibilities of legal custodians and court-appointed guardians respectively. They would be amended to require the reporting of non-VA assets. 38 CFR 13.100(a)(1) defines the authority of the Veterans Services Officer to supervise fiduciaries. The intended change would permit the Veterans Services Officer to request non-VA financial information from fiduciaries. 38 CFR 13.102(b) and 13.104(b) define the accountability of legal custodians and court-appointed guardians respectively. The intended change requires disclosure of non-VA financial information.

Abstract: The Veterans' Benefits and Programs Improvement Act of 1988 contains several provisions which affect the Montgomery GI Bill Active Duty. These include liberalizing the eligibility requirements for this program, providing a death benefit in this program, permitting cooperative training in this program, permitting refresher, remedial and deficiency training in this program, providing tutorial assistance to veterans and servicemembers in this program, and liberalizing the standards for determining extensions to a veteran's basic period of eligibility. This proposal will acquaint the public with the way in which VA will administer these provisions of law.

Legal Deadline: None

Abstract: This proposed change would eliminate provisions under which a service-disabled veteran in the vocational rehabilitation program could elect payment of subsistence allowance at the chapter 34 educational assistance rate. VA may not pay an allowance at the chapter 34 educational assistance rate for training taken after December 31, 1989. VA rules implementing this provision of law also bars the election of subsistence allowance at the chapter 34 educational assistance rate after that date. The intended effect of this change is to update VA regulations by removing all provisions for election of subsistence allowance at the chapter 34 rate or payment at that rate.

Abstract: To establish standards and procedures for enforcing Title IX of the Education Amendments of 1972 in educational programs and activities receiving Federal financial assistance from VA. Title IX prohibits discrimination on the basis of sex. There are no alternatives to the issuance of the regulations. Participants, potential participants and the public in general will benefit from Federally assisted programs provided free from prohibited discrimination based on sex.

This originally appeared as a proposed rule in the Federal Register of April 25, 1979 (44 FR 24320). Because of the extended time frame due to internal agency consultation with the Department of Justice, the Department is planning to repropose these regulations.

Abstract: Cases have held that the head of an agency may not lawfully delegate to, or expand the authority to subpoena documents of, the Offices of Inspector General established under the Inspector General Act. (The VA Inspector General was established under that Act.) Thus, the delegation of subpoena authority under 38 CFR 2.1 does not comport with law and should be changed. Current regulations do not specify the method of service. This amendment would rescind this delegation and incorporate into 38 CFR 2.1 information on methods of service of administrative subpoenas, as other agencies do on exercising subpoena power. It would provide needed guidance to VA officials and the public on proper service of subpoenas.

Legal Authority: 38 USC 5031 to 5037; PL 100-322

CFR Citation: 38 CFR 17.170 to 17.177

Abstract: Pub. L. 100-322 changed the date of the priority list for applications from July 1 to August 15. The Secretary is provided authority to conditionally award construction grants. If a state does not complete requirements within 90 days after conditional approval, funds will be deobligated. These proposed regulations will implement that change. Construction standards in 38 CFR 17.177 are being totally reformatted, revised and updated. The veteran population in 38 CFR 17.171 Appendix A is being updated to reflect the current information. Additionally, provisions are being established to handle large grant requests where one project may exceed the annual appropriation. Requests for projects exceeding one-half the annual appropriation will receive lower priority on the list and may be partially funded if funds are available, the project ranks high enough on the priority list for Federal funds, and the State accepts a smaller grant.

3166. 1. APPORTIONMENT OF BENEFITS TO DEPENDENTS 2. PAYMENT OF COST OF VETERAN'S MAINTENANCE IN INSTITUTION 3. RECOMMENDATION FOR PAYMENT

Legal Authority: 38 USC 210; 38 USC 3202; 38 USC 3203; PL 98-543, Sec 402

CFR Citation: 38 CFR 13.70; 38 CFR 13.71; 38 CFR 13.74

Legal Deadline: None

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC Sec. 3203(b) (1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State run nursing homes or other institutions operated by the United States or a political subdivision. The Department of Veterans Affairs, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Abstract: VA has a regulation which provides authority and guidelines for making service-connected discharge determinations needed to determine eligibility for VA benefits. On November 18, 1988, VA proposed an amended regulation to determine when this determination must be made for a veteran who has applied for benefits under the Montgomery GI Bill-Active Duty. Subsequently, legislation was enacted which requires this determination for some reservists under the Montgomery GI Bill-Selected Reserve. VA will combine the two requirements and publish the regulation for further comment.

3171. AUTHORITY OF FIDUCIARIES TO CONDUCT INSURANCE TRANSACTIONS

Legal Authority: 38 USC 706; 38 USC 744

CFR Citation: 38 CFR 8.211; 38 CFR 8.119

Legal Deadline: None

Abstract: Under current procedures, State appointed fiduciaries may perform insurance transactions, e.g., apply for coverage or reinstate a policy, on behalf of incapacitated veterans. The ability of a fiduciary to perform a particular transaction is dependent on the authority granted to the fiduciary by State law. Such authority varies from State to State. Because of this, before any insurance transaction can be completed it must first be determined whether the fiduciary is authorized by State law to conduct the particular transaction. This entails referring the matter to a District Counsel for review. This process is time consuming and delays rendering service to our policyholders. In order to alleviate this problem and to establish a consistent approach regarding the powers of State-appointed fiduciaries, as well as federally appointed fiduciaries as they pertain to government life insurance transactions only, we are proposing regulations which will clarify and enunciate such powers.

Abstract: The Veterans' Benefits Improvement and Health-Care Authorization Act of 1986 contains several provisions which affect the provision of educational assistance to members of the Selected Reserve. The most important provisions include a change in the way in which VA must measure certain courses which do not lead to a standard college degree; a requirement that certain reservists be counseled before choosing a program of education; and a change concerning nonduplication of Federal programs. The appropriate regulations must be amended accordingly. The Veterans' Benefits and Program Improvement Act of 1988 contains some related provisions which also require amendments to VA regulations. These amendments will be proposed at the same time. Unrelated amendments will be proposed separately.

Abstract: The Veteran's Benefits and Program Improvement Act of 1988 provides that mitigating circumstances exist the first time a veteran withdraws from a course or courses which do not exceed six semester hours or the equivalent for which the veteran has been paid. Under prior provisions the determination of mitigating circumstances would have been made on a case-by-case basis. In addition, mitigating circumstances exist when a veteran's program must be interrupted or terminated because of problems in obtaining or arranging for child care.

Legal Deadline: None

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (R 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1968. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

Legal Authority: 38 USC 4109

VA

Final Rule Stage

CFR Citation: 38 CFR 17.162

Legal Deadline: None

Abstract: Section 4209 of Title 38 authorizes the Veterans Canteen Service to operate child care centers at VA facilities. The centers will be established based on the demand for care and to the extent that such operation is practical and in the best interest of VA. The centers will be available for the children of VA employees and, to the extent space is available, the children of other Federal and Department of Veterans Affairs affiliated employees. Also, these centers should provide an incentive for personnel recruitment. The regulations will prescribe the requirements and standards for the operation of VA child care centers.

Legal Authority: 31 USC 3721(b)

CFR Citation: 38 CFR 2.6(e)(5); 38 CFR 2.75; 38 CFR 14.604

Abstract: This regulation would implement a statutory change increasing from $25,000 to $40,000 the maximum amount that the Government may pay to settle and pay claims for loss or damage incident to service. This increase is reasonable to keep pace with inflation and is consistent with prior adjustments based on inflation.

Legal Authority: 38 USC 3301(f)

CFR Citation: 38 CFR 1.519

Legal Deadline: None

Abstract: VA is amending the existing regulations concerning VA lists of names and addresses and is also proposing administrative procedures to use when these lists are used for purposes not authorized by law. This action results from the need to amend the regulations to reflect current procedures, organizational changes, and concern expressed by veterans and some service organizations regarding unsolicited mail. The proposed regulatory amendments will allow VA to enforce its statutory duty to protect the privacy of information concerning veterans and their dependents, establish procedures to suspend recipients who misuse VA name and address lists of veterans/dependents, and give advance notice to recipients of what constitutes an authorized/unauthorized use of veterans/dependents names and address lists, thereby protecting the due process rights of any recipient before penalties are enforced.

Abstract: Executive Order 12600, Predisclosure Notification Procedures for Confidential Commercial Information, establishes certain mandatory and uniform procedures for handling Freedom of Information Act (FOIA) requests for records which may contain confidential commercial information, protected by FOIA exemption (5 U.S.C. 552(b)(4)). The Executive Order requires the notification and designation procedures be established in VA regulations. Accordingly, the revision to 38 CFR 1.554 will comply with the requirements of the Executive Order.

Abstract: This regulation implements Section 319 of Public Law 101-121. Section 319 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal government in connection with a specific contract, grant or loan. Section 319 also requires that each person who requests or receives a Federal contract, grant, cooperative agreement, loan, or a Federal commitment to insure or guaranty a loan, must disclose lobbying.

Legal Authority: 38 USC 1515(a)(4)

CFR Citation: 38 CFR 21.258; 38 CFR 21.430

Legal Deadline: None

Abstract: These rules establish a simpler and more flexible system under which the expenditure of funds for training and rehabilitation services is subject to review as the amount needed to pay for tuition, fees and other costs increases. Under the revised procedures, most of the specific monetary limits used for determining the necessary level of administrative review are no longer specified in the regulation. These regulatory amendments will enable VA to move more rapidly to change review limits administratively as increases in the cost of living forces changes in program costs.

Semiannual Regulatory Agenda

ACTION (ACTION)

ACTION

45 CFR CH. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Frank B. Stilwell, III, General Counsel, ACTION, 1100 Vermont Avenue NW., Washington, DC 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), Executive agencies are required to publish in the Federal Register semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public, and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required under 5 U.S.C. 602.

Dated: August 24, 1990.

Jane A. Kenny,

Director.

2344. FREEDOM OF INFORMATION ACT REGULATIONS

Legal Authority: 16 USC 470 Nat. Historic Preservation Act of 1966, as amended

CFR Citation: 36 CFR 810.5

Legal Deadline: None

Abstract: The regulation will increase the fees charged to requesters of information to better reflect the cost to the Government of locating and copying the documents requested. Copying charges would be increased from $0.10 to $0.13 per page; fees for searches by professional staff from $2.00 to $4.65 per quarter hour; and fees for searches by clerical staff from $1.00 to $2.30 per quarter hour. The regulation would thus impose a "user's fee" to users of the Government FOIA system which is more consistent with other agencies' fees.

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Legal Deadline: None

Abstract: This regulation sets forth provisions of the Agency for International Development (AID), acting as an agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, PL 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

Significance: Regulatory Program

Legal Authority: 5 USC 301; 42 USC 289; 49 USC 300v-1(b)

CFR Citation: 22 CFR 209

Legal Deadline: None

Abstract: This final rule will modify current regulations for the protection of human subjects at Title 22 CFR Part 209 to incorporate changes developed by the Interagency Human Subjects Coordinating Committee, Federal Coordinating Council on Science Engineering and Technology (FCCSET). The Committee drafted a common rule for Federal departments and agencies conducting or supporting research involving human subjects which was based on the HHS regulations. This effort was in response to a key recommendation of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research in the First Biennial Report in 1981.

Commission on Civil Rights

Semiannual Regulatory Agenda

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: U.S. Commission on Civil Rights.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 6-month period from October 1, 1990, through March 31, 1991. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact: Emma Monroig, Solicitor, U.S. Commission on Civil Rights, Room 604, 1121 Vermont Avenue NW., Washington, DC 20425, (202) 376-8375.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the Federal Register semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required.

Emma Monroig,

Solicitor.

COMMISSION ON CIVIL RIGHTS (CCR) — Proposed Rule Stage

3287. COMMISSION ON CIVIL RIGHTS—UPDATE AND REVISION

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552(a); 5 USC 552(b)

CFR Citation: 45 CFR 701; 45 CFR 702; 45 CFR 703; 45 CFR 705

Legal Deadline: None

Abstract: The regulation updates and revises most of the Commission's current regulations, specifically 45 CFR 701, 702, 703, and 705. 45 CFR 701 identifies the organization and functions of the Commission. 45 CFR 702 specifies the rules on hearings, reports and meetings of the Commission. 45 CFR 703 identifies the operations and functions of the Commission's State advisory committees. 45 CFR 705 states the Commission's obligations under the Privacy Act.

3288. IMPLEMENTATION OF FREEDOM OF INFORMATION REFORM ACT

Significance: Agency Priority

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552

CFR Citation: 45 CFR 704 (Revision)

Legal Deadline: Final, Statutory, April 18, 1987.

Abstract: The regulation implements the 1986 statutory amendments to the Freedom of Information Act (FOIA) (5 USC 552). The revised provisions modify the terms of exemption 7 and also establish new procedures regarding the charging and waiving of fees pursuant to a FOIA request.

Environmental Protection Agency

Semiannual Regulatory Agenda

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL-3823-1]

Regulatory Agenda

AGENCY: Environmental Protection Agency [EPA].

ACTION: Notice.

SUMMARY: EPA revises and issues the Regulatory Agenda semiannually. The agenda appears in the Federal Register each April and October and is intended to keep interested parties informed of the progress of EPA regulations. It provides specific information on the status of regulations that are under development, revision, and review at the Agency.

ADDRESSES: If you want to be on the mailing list for future agendas, please call or write to Bridgette Dent, Regulation Development Branch, EPA, PM-223, Washington, DC 20460, (202) 382-7225.

If you have suggestions for improving this publication or need general information about the agenda, please write or call to Mary Henigin, Regulation Development Branch, EPA, PM-223, Washington, DC 20460, (202) 382-7225.

FOR FURTHER INFORMATION CONTACT: For specific information on any item in the agenda, contact the person listed with each entry.

SUPPLEMENTARY INFORMATION:

The agenda provides the title, an abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and schedule for completing the action for each regulation under review. The following statutes are covered in the agenda:

Asbestos Hazard Emergency Response Act (AHERA)
Atomic Energy Act (AEA)
Clean Air Act (CAA)
Clean Water Act (CWA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Hazardous and Solid Waste Amendments (HSWA)
Marine Protection, Research, and Sanctuaries Act (MPRSA)
Resource Conservation and Recovery Act (RCRA)
Safe Drinking Water Act (SDWA)
Superfund Amendments and Reauthorization Act (SARA)
Toxic Substances Control Act (TSCA)
Water Quality Act of 1987 (WQA)
General - Other Acts (including grant and procurement regulations that cut across several program areas)

It also indicates the "review authority," which may be different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to outline the Administration's annual Regulatory Program. It defines priority activities that Federal departments and agencies will work on during the upcoming year. Its purpose is to minimize duplication and conflict among regulatory activities and enhance public understanding of the Administration's regulatory objectives.

Executive Order 12291 establishes the general policy that Federal departments and agencies should review their regulations to ensure that the costs of the regulations are justified by their benefits. The Office of Management and Budget (OMB) reviews agency rules to assess their compliance with the Executive order's goals of maximizing net social benefits.

The Regulatory Flexibility Act (RFA) requires that Federal departments and agencies review existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every 10 years. EPA invites public comment regarding RFA issues on the list of regulations EPA is reviewing. Reviews EPA has targeted under the RFA are identified under "Analysis." The agenda identifies the types of entities affected under "Small Entities Affected." The "Government Levels Affected" (i.e., State, local, or Federal) is also indicated.

When the Agency completes reviews of regulations with a significant impact on small entities, the agenda indicates whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 18, 1981, plan (46 FR 36830) for reviewing regulations under the Act.

The *Paperwork Reduction Act* (PRA) requires Federal departments and agencies to review their information collection activities to assure that they need and will use the information and manage it efficiently. They must also ensure that the information to be collected is of high quality, appropriate for its intended use, and does not already exist at some other Federal agency. In addition, the PRA requires agencies to review the cost of collecting the information so that it will be held to a minimum for both the respondent and the agencies. Congress gave oversight authority to OMB. EPA must have OMB approval before it either collects information or requires that information be collected.

Organization of the Agenda

The agenda is organized by statute and ordered numerically within each statutory area. Entries within each statute are divided into four categories: (1) Prerule, (2) proposed rule, (3) final rule, and (4) completed actions (i.e., regulations that EPA is deleting from the agenda because the Agency has completed, withdrawn, or postponed them indefinitely). Detailed information on each of these categories is presented below.

I. Prerulemakings

Prerulemaking actions include activities intended to determine whether or not to initiate rulemaking. These activities include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking, significant studies or analyses of the possible need for regulatory action, requests for public comment on the need for regulatory action, or important pre-regulatory policy proposals.

This section also includes review of existing EPA regulations. The purpose of such reviews is to determine whether the Agency should revise, rescind, or leave the existing rule unchanged. If EPA decides to revise or rescind an existing regulation, that action will appear in the next agenda in the proposed rule section along with a timetable for completing the revision or rescission.

II. Proposed and Final Rules

EPA

This section includes all "significant" EPA regulations. Some are priority regulations under development that are subject to Executive Order 12498 or that the Agency has designated for priority development or revision. These regulations are also subject to certain provisions of E.O. 12291, RFA, and PRA. EPA generally lists regulations in this category of the agenda once they are within a year of proposal or promulgation. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away. However, the listings exclude (a) specialized categories of actions (i.e., EPA approvals of State plans and other actions that do not apply nationally); and (b) routine actions (i.e., pesticide tolerances and minor amendments to existing rules).

III. Completed Actions

These are actions that appeared in the previous agenda, which EPA is deleting because they are completed or are no longer under consideration for rulemaking. Information on these regulations is less detailed than for those that are still under consideration.

Acting Assistant Administrator, Office of Policy Planning and Evaluation.

Proposed Rule Stage

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

3258. TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES OR PROCESSED FOODS

Significance: Regulatory Program

Legal Authority: 21 USC 346(a)/FFDCA 408; 21 USC 348/FFDCA 409

CFR Citation: 40 CFR 177 to 180; 40 CFR 185 to 186

Legal Deadline: None

Abstract: This rule will set the criteria, interpretations, and categorizations the Agency will follow in establishing tolerances and food additive regulations under Sections 408 and 409 of FFDCA (USC 348) for pesticides and residues in or on raw agricultural commodities (RAC's) or processed foods. These regulations will restate, update, and/or clarify practices that have been developed over many years, some of which have never been codified.

Significance: Regulatory Program

Legal Authority: 7 USC 136/FIFRA 2; 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136c/FIFRA 5

CFR Citation: 40 CFR 152.20

Legal Deadline: None

Abstract: EPA will consider the need for an amendment to clarify that pesticides produced by or within transgenic plants are considered biological pest control agents and, therefore, may not be exempt from the provisions of FIFRA (the existing section 152.20 exempts from FIFRA regulation all plants that may be used as biological pest control agents). Instead, chemical pesticides produced by transgenic plants may receive regulatory oversight similar to that which is already in place for more traditional pesticide products that are produced and applied by conventional means. This regulation and its development will be coordinated with USDA/APHIS and other agencies, as appropriate.

Significance: Regulatory Program

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136d/FIFRA 6; 7 USC 136w/FIFRA 25

CFR Citation: 40 CFR 152.170

Legal Deadline: None

Abstract: This rule will provide a mechanism for identifying pesticides which may pose an unreasonable risk because of the potential to leach into groundwater. The Agency will propose criteria for identifying pesticides as candidates for classification for restricted use. Restricted use pesticides generally may be applied only by state certified applicators.

Abstract: This action is intended to develop regulations to allow the sale of restricted use pesticides to persons who are not certified under special circumstances as set forth by Congress in 1978. Regulatory development will be coordinated with the review of State plans under FIFRA Section 11 to determine both need and compatibility with State authorities and programs.

3265. AMENDMENTS TO EXPERIMENTAL USE PERMIT RULE FOR CERTAIN MICROBIAL PESTICIDES (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136c /FIFRA 5; 7 USC 136a/FIFRA 3

CFR Citation: 40 CFR 172

Legal Deadline: None

Abstract: EPA proposes to amend its experimental use permit regulations for pesticides to clarify the circumstances under which an experimental use permit is presumed not to be required and the basis for that presumption. EPA also proposes to require notification before initiation of small-scale testing of certain genetically modified microbial pesticides. Each notification will be reviewed by the Agency, and a determination made as to whether an experimental use permit will be required. This notification scheme would implement provisions of the Agency's policy statement of June 26, 1986 (51 FR 23303), with some modifications, and is intended to provide sufficient oversight of the early testing of certain microbial pesticides.

3266. REPORTING REQUIREMENTS FOR RISK/BENEFITS INFORMATION (REVISION)

Legal Authority: 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 153

Legal Deadline: None

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6(a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is reissuing it as a proposal to clarify the types of information which registrants must report to EPA.

Abstract: This amendment will update the existing current data requirements (40 CFR 158) for evaluating the registrability of pesticide products. Reasons for the revisions include recent health and environmental concerns (e.g., groundwater contamination, worker exposure and neurotoxicity) and advancements in testing technology. The revisions may clarify data requirements to reflect current practice, and changes to make 40 CFR 158 consistent with FIFRA 88. Also, comparative product performance data requirements for use in risk/benefit analysis and in preparation of regulatory options used in making risk/benefit decisions will be incorporated into 40 CFR 158.

Abstract: The 1988 amendments to FIFRA significantly expand EPA authority to regulate the storage, transportation, and disposal of pesticides. The Agency may exercise this authority through labeling provisions, procedures for recall of canceled products, and other regulations for storage, transport, and disposal of pesticide residues. EPA is required to conduct a study on pesticide container design, and submit a Report to Congress by 12/24/90. Container design and residue removal regulations must be issued by 12/24/91.

Abstract: This action initiates a regulatory investigation under TSCA sections 5 and 6 to determine the most cost-beneficial way to reduce human exposure to lead (Pb). The investigation will consist of the following: (1) examination of the potential sources of human exposure to lead throughout the life cycle and determination of unreasonable risks; (a) publication of an ANPRM requesting information and announcing our regulatory intentions, which could possibly include a TSCA section 6(a) rule for mandatory battery recycling, (b) a TSCA section 6(a) rule to restrict or phase-out high exposure Pb uses, and (c) a TSCA section 5(a)(2) significant new use rule (SNUR) for Pb to prevent hazardous new uses of Pb. The initiative may reduce risks from exposure to Pb via regulatory economic incentives designed to promote pollution prevention by using less hazardous substitutes and recycling whenever possible.

Legal Authority: London Guidelines for the Exchange; of Information on Chemicals in; International Trade

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The EPA intends to publish a proposed policy statement implementing the Prior Informed Consent (PIC) procedure for industrial chemicals. The principle of PIC was accepted by the United National Environment Programme(UNEP) as an amendment to the London Guidelines for the Exchange of Information on Chemicals in International Trade. The US is a member of UNEP and a signatory to the Guidelines. Hence, EPA is preparing this policy statement to further comply with the London Guidelines, specifically the provisions of the PIC procedure.

The goal of the Guidelines is to enhance the safe management of chemicals in all countries through the exchange of scientific, technical, economic, and legal information on chemicals in international trade. The policy statement will provide the current proposed list of industrial chemicals banned or severely restricted in the US which will include chemicals subject to regulatory action taken by agencies other than EPA. OTS believes this policy statement will establish a mechanism for info exchange which will advance the protection of human health and the global environment.

Abstract: EPA has instituted a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under the Toxic Substances Control Act (TSCA) sections 5 and/or 8 to require reporting by the manufacturers, importers and/or processors of these chemicals. Individual proposed or final rules will be published on at least the chemicals listed below.

3288. GENERIC SIGNIFICANT NEW USE RULE (SNUR) FOR ACRYLATE COMPOUNDS

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of manufacture or processing for a significant new use. The significant new use rule will apply to a subset of acrylates and methacrylates added to the inventory after the effective date of the rule. It will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

3289. RULEMAKING CONCERNING CERTAIN MICROBIAL PRODUCTS ("BIOTECHNOLOGY")

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5; 15 USC 2607 /TSCA 8

EPA—TSCA

Proposed Rule Stage

CFR Citation: 40 CFR 704; 40 CFR 720; 40 CFR 721

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act (TSCA), the Agency is proposing two separate regulatory actions for manufacturers, importers, and processors of certain microbial products of biotechnology. Under section 5 of TSCA, the Agency is proposing to amend its definition of "small quantities solely for research and development" contained in the Premanufacture Notification (PMN) Rule, thereby requiring persons to submit notices prior to testing new microorganisms in the environment. This amendment will establish a special notification mechanism for experimental releases of microorganisms. EPA also is proposing significant new use notification requirements under section 5(a)(2), which would ensure that EPA will receive for review, notices of large scale releases of microorganisms developed for significant new uses. The primary objective of these actions is to ensure uses of microorganisms in the environment do not affect human health and the environment in unforeseen and possibly harmful ways.

Significance: Regulatory Program

Legal Authority: 15 USC 1504/TSCA 5

CFR Citation: 40 CFR 723

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act (TSCA), the Agency will propose to exempt from review certain categories of new microorganisms used in specified contained systems. To meet the requirements under section 5(h)(4) of TSCA, it must be shown that the substances may not present unreasonable risks. EPA is considering public comment received and other evidence concerning use of microorganisms in closed systems and other controlled environments to determine whether certain specific categories satisfy the requirements of section 5(h)(4) of TSCA.

Legal Authority: 15 USC 2604, 2607, 2613/TSCA 5

CFR Citation: 40 CFR 720 to 723

Legal Deadline: None

Abstract: This action will amend the PMN rules (40 CFR 720 to 723) under Section 5 of the Toxic Substances Control Act (TSCA) to conform to current policy needs. These changes are necessary to increase efficiency and incorporate proposed program improvements. They are expected to reduce the administrative burdens/cost of the New Chemicals Program and the overall number of Section 5 submissions while maintaining an effective and environmentally sound program. The New Chemicals Program has identified "low-risk" categories that meet certain established criteria and can be screened out of the full PMN review process at an early date based on low health/environmental concern or low exposure scenarios. The New Chemicals Program would like to reduce the burden to PMN submitters and maximize its efficiency and resources by modifying the rule to reduce reporting requirements for low risk categories. This would enable the Agency to reduce the number of Section 5 submissions to allow the New Chemicals Program to concentrate its resources on PMNs with potential health or environmental concerns and at the same time ensure an environmentally sound program.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Legal Deadline: None

Abstract: As described in the FEDERAL REGISTER on May 23, 1984, the Agency has been investigating regulatory options for reducing the exposure to formaldehyde of: (1) residents exposed to formaldehyde emissions from wood products used in the construction of manufactured homes; (2) similarly exposed residents of conventional homes; (3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. When OSHA proposed a revised workplace standard in

December 1985 that applies to all occupational exposure, EPA terminated its investigation with respect to apparel manufacturing employees. Investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

Abstract: Section 6(e)(3)(B) of the Toxic Substances Control Act (TSCA) provides that the Administrator may grant, by rule, exemptions from the prohibitions on the manufacture, processing, and distribution in commerce of PCBs upon findings (1) that granting the exemption will not pose an unreasonable risk of injury to health or the environment, and (2) that good faith efforts have been made to develop a PCB substitute which does not pose an unreasonable risk of injury to health or the environment.

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6; 15 USC 2603/TSCA 9

CFR Citation: 40 CFR 754

Abstract: EPA, in consultation with the Consumer Product Safety Commission, Occupational Safety and Health Administration, and Food and Drug Administration, is developing a comprehensive and integrated strategy for a regulatory investigation of methylene chloride and five other chlorinated solvents. In some cases, these chlorinated solvents are competitive and can be easily substituted for each other in a number of uses. The integrated effort is being conducted to reach general agreement on the risks associated with the solvents and to avoid ineffective risk management actions that may occur due to solvent switching or pollutant transfer among media which could be caused by piecemeal regulation. Data are being gathered for six solvents (methylene chloride, perchloroethylene, trichloroethylene, methyl chloroform, carbon tetrachloride, and CFC-113 which is now being phased out due to its ozone depletion characteristics) and their potential substitutes. Work on two exposure categories has been completed and actions have been initiated under other statutes (Clean Air Act or Occupational Safety and Health Act). This regulatory (cont)

3296. SCRAP METAL RECYCLING REGULATORY CONTROLS

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR 761

Legal Deadline: None

Abstract: Processing, distribution in commerce, and disposal activities by the scrap metal recycling industry are resulting in some releases of PCBs (and other hazardous substances such as lead) at levels exceeding current regulatory action levels. The problem may affect all media (air, land, and water) and workers. Regulatory options under consideration focus on the mandate of both the Resource Conservation and Recovery Act (RCRA) and the Toxic Substances Control Act (TSCA). Options include 1) mechanisms to provide relief to the shredding industry such as authorizing PCB-related activities that do not present an unreasonable risk, and 2) the feasibility of using TSCA to render output of shredding non-hazardous under RCRA.

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR Not Yet Determined

Abstract: EPA is examining the use of Acrylamide and N-Methylolacrylamide for grouting and the neurotoxic and possible carcinogenic risks to workers. Significant dermal and inhalation exposures to grouters may occur even while using personal protective equipment. This investigation may lead to initiation of regulatory controls to reduce unreasonable risks. Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR Not Yet Determined

Legal Deadline: NPRM, Judicial, April 30, 1991.
Deadline is a requirement of a Consent Decree between the EPA, the Environmental Defense Fund, and the National Wildlife Federation, signed on July 27, 1988.

Abstract: The objective of this project is to reduce the unreasonable risks posed by dioxins and furans in bleached wood pulp and paper mill industrial sludge. In response to a July 1988 Consent Decree with the Environmental Defense Fund and the National Wildlife Federation, EPA announced on April 30, 1990 its schedule for a proposed rule under the Toxic Substances Control Act (TSCA), addressing the practice of industrial sludge land application (including mine reclamation and distribution/marketing). The Consent Decree requires that this rule must be proposed by April 30, 1991.

Legal Authority: 15 USC 2607(a)/TSCA 8(a)

CFR Citation: 40 CFR 704 (Revision)

Legal Deadline: None

Abstract: This proposed rule will amend certain aspects of the CAIR. The CAIR is a model rule designed to gather production, use, and exposure information from chemical manufacturers, importers, and processors of listed chemical substances and mixtures. In response to public comments, EPA is considering revision of the CAIR to: establish exemptions for small and "de minimis" volumes; refine trade name reporting requirements; reduce certain advance substantiation requirements for Confidential Business Information (CBI) claims; and define processing activities using processor subclasses.

Legal Authority: 15 USC 2604/TSCA 5; 15 USC 2607/TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Abstract: EPA has instituted a program to follow the commercial development of selected new chemicals that have completed premanufacture notice review. EPA will issue rules on new chemicals of concern as they are identified to require follow-up reporting under TSCA Section 5 or 8, by the manufacturers and processors of the chemicals. Under the Expedited Follow-up Rule which became effective on October 10, 1989, EPA will publish a batch SNUR 6-12 times a year. EPA will identify Non-5(e) new chemical substances as candidates for regulation in the batch SNURs.

3302. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES (SNURS) TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that uncontrolled manufacture, import, processing, distribution, use or disposal of a premanufacture notification notice (PMN) substance may present an unreasonable risk, it may issue a section 5(e) consent order to limit these activities. However, such orders apply only to the PMN submitter. Once the new substance is entered on the Toxic Substances Control Act (TSCA) chemical inventory, others can manufacture, import or process the substance without controls. Therefore, EPA extends the controls to apply to others by designating manufacture, import or processing of the substances for uses without the specified controls as significant new uses. Using the Expedited Follow-Up Rule (EFUR) which became effective on October 10, 1989, EPA published three groups of EFUR SNURs: 6 on 4/24/90 (55 FR 17376); 42 on 6/26/90 (55 FR 26092) and (55 FR 26102); and 30 on 7/2/90 (55 FR 27257). Further publications are planned for August, September and October, 1990 which will cover 127 more new substances.

3304. ● REGULATION OF PAINTS CONTAINING MERCURY-BASED BIOCIDES

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR Not Yet Determined

Legal Deadline: None

Abstract: The Agency is currently investigating possible options to reduce risks associated with the use of mercury biocides in paint and coating products. The Office of Pesticide Programs (OPP) has recently announced that negotiations with registrants of the mercury biocides have lead to the voluntary cancellation (as of June 29, 1990) of the registration governing use of such biocides in interior paints. Exterior paints containing mercury must be labeled "for exterior use only" The Office of Toxic Substances (OTS) is considering regulation requiring that paint produced prior to June 29, 1990 be labeled. EPA is also considering whether to require hazard labeling for imported paints containing mercury.

Abstract: A technical amendment to clarify the TSCA Inventory Data Base was promulgated in May 1986 in order to obtain recent production volume and plant site data for certain chemical substances on the inventory. The rule requires reporting every four years. EPA is making some technical amendments to the rule in order to facilitate compliance and to make the rule consistent with other OPTS and EPA reporting activities.

Legal Authority: 15 USC 2607a / TSCA 8(a)

CFR Citation: 40 CFR 712

Legal Deadline: None

Abstract: These rules add chemicals to the list of chemicals and designated mixtures subject to the requirements of the Toxic Substances Control Act Section 8(a) Preliminary Assessment Information Rule (40 CFR Part 712). These chemicals have been identified by the Office of Toxic Substances, other EPA offices, and other federal agencies, as well as recommended for testing consideration by the Interagency Testing Committee. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. It will also support risk assessment and test rule decisions.

Legal Deadline: Final, Statutory, January 1, 1992.
Statutory deadline for EPA to issue biennial notice.

Abstract: In accordance with Section 304(m) of the Clean Water Act, EPA published a biennial plan in the Federal Register for the promulgation of new effluent limitations guidelines and standards and the review and revision of existing guidelines and standards for categories of sources discharging toxic and non-conventional pollutants. Section 304(m) establishes a planning process that sets the Agency's agenda for future effluent guidelines and standards rulemaking. The first notice was published in the Federal Register on January 2, 1990; it describes EPA's commitments to prepare new or revised guidelines covering nine industry categories and to conduct pre-regulatory studies for eleven other industries. Subsequent 304(m) notices will identify additional categories for promulgation of new guidelines and revision of existing guidelines.

Abstract: On October 4, 1985 the EPA promulgated a final regulation establishing Best Available Control Technology (BAT) effluent limitations, New Source Performance Standards (NSPS), Pretreatment Standards for Existing Sources (PSES), and Pretreatment Standards for New Sources (PSNS) for the pesticide industry under the Clean Water Act. On July 25, 1988, the final regulation was remanded to the EPA by the Eleventh Circuit Court of Appeals in response to a joint motion filed by the Agency and other parties to litigation challenging the regulation. EPA removed the BAT effluent limitations, NSPS, PSNS, and PSES from the Code of Federal Regulations at the direction of the court and informed the public that the regulation is no longer effective (December 15, 1988; 51 FR 44911). The Best Practicable Control Technology (BPT) limitations published on April 25, 1978 and September 29, 1978, are still effective. The Agency intends to establish new effluent limitation guidelines and standards for the pesticide manufacturers and formulators/packagers. Abstract: EPA will review the existing Best Practicable Technology (BPT) and Best Conventional Pollutant Technology Control (BCT) effluent limitations for all 600 mills in the pulp, paper, and paperboard industry, as well as Best Available Control Technology (BAT), New Source Performance Standards (NSPS), Pretreatment Standards for Existing Sources (PSES), and Pretreatment Standards for New Sources (PSNS) for the 104 mills which bleach chemical pulps. Significance: Regulatory Program

Legal Authority: 33 USC 1311 /CWA 301

CFR Citation: 40 CFR 414

Legal Deadline: None

Abstract: On October 10, 1989, the US Court of Appeals for the Fifth Circuit remanded a portion of the organic chemicals, plastics, synthetic fibers regulation that was originally promulgated on November 5, 1987 (54 FR 42522). The revocation notice that implemented the provisions of the remand was published on June 29, 1990 (55 FR 26691). The Agency has initiated technical and economic studies to provide the basis for reproposing and repromulgating appropriate limitations in 1991.

In the interim, EPA will propose amendments to 40 CFR 414 to implement the provisions of settlement agreements negotiated with petitioners during litigation of the OCPSF regulation. The proposed amendments would allow regulatory authorities to establish cyanide limitations and standards based on best professional judgment for elevated levels of non-amenable cyanide that result from the unavoidable complexing of cyanide at the process source of cyanide-bearing waste (cont)

Another amendment proposes to allow regulatory authorities to establish metals limitations and standards to accommodate low background levels of metals in non- "metal-bearing waste streams" that result from corrosion of construction materials or from contamination of raw materials. Abstract: In accordance with a settlement agreement dated March 5, 1986 (51 FR 7571), the Agency modified the Copper Forming regulation (40 CFR Part 468) issued on August 15, 1983 (48 FR 36957) to exclude the forming of beryllium copper alloys (copper that is alloyed to contain 0.1 percent or more beryllium) and to create a new subcategory in the regulation reserved for effluent guidelines and standards covering beryllium copper alloys. Abstract: The revisions to the regulations primarily are intended to respond to statutory changes made to sec. 301(h) of the Clean Water Act (33 USC 1311(h)), which governs secondary treatment waivers for municipal discharges into marine waters. The statutory changes to be addressed include, among other things, new requirements for minimum treatment levels and additional requirements for pretreatment programs for certain waiver applicants. In addition, the Agency is considering revising the regulations to address more specifically procedures and requirements for the renewal of secondary treatment waivers. The revised regulations will affect only the limited number of municipal treatment plants which met the 1982 statutory deadline for applying for a secondary treatment waiver.

Legal Authority: 33 USC 1342 /CWA 402

CFR Citation: 40 CFR 122.21(j)

Legal Deadline: None

Abstract: This action will revise the current NPDES Permit Application Standard Form A (municipal) and Short Form A (municipal) to reflect amendments to the Clean Water Act and changes in program requirements and emphasis. The new application forms will replace the old versions and enable permit writers to obtain more pertinent information regarding expected discharges and the environmental impact of proposed operations.

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will amend the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. The revisions will reflect our experiences to date under Section 404(c), and more clearly address use of 404(c) in advance of a specific proposed discharge.

EPA—CWA

Proposed Rule Stage

Abstract: This rulemaking would revise the regulations applicable to the ocean dumping of dredged material. Issuance of these regulations is necessary to respond to the decision in National Wildlife Federation vs. Costle, 629 F. 2d. 118 (DC Circuit 1980) and to incorporate program experience. The revisions will make necessary technical changes and will improve the clarity of the regulations.

Legal Authority: 33 USC 1251 et seq /CWA 303(d); 33 USC 1251 et seq /CWA 305(b)

CFR Citation: 40 CFR 130

Abstract: EPA published a Federal Register notice on July 24, 1989 to re-open and extend the public comment period on a proposal to require a biennial submission of lists of waters under sections 303(d) and 305(b) of the Clean Water Act (CWA). On 1/12/88, in conjunction with the regulation to implement Section 304(l) of the CWA, EPA proposed to require that the States submit as part of 305(b) reports, the lists of waters required by 303(d) of the CWA. However, after reviewing public comments, EPA decided not to include this particular requirement in the final regulation for 304(l), which was published in the Federal Register on 6/2/89 (54 FR 23868). Instead, EPA decided to solicit additional comments on the proposal and consider promulgating these listing requirements at a later date, if appropriate. The proposed amendments require States to submit to EPA every two years the list of water quality-limited waters required under 303(d) of the CWA. The reporting vehicle for the list would be the States Biennial Water Quality Reports required by CWA 305(b). (cont)

Abstract: The Agency is taking action to de-designate certain ocean dumping sites. This action will take the form of two rulemaking actions: (1) to remove from the list of ocean dumping sites as published in the Code of Federal Regulations sites whose designations have expired or which were terminated by previous rulemaking and (2) to de-designate ocean dumping sites which are no longer needed. None of the sites affected are being used. This action is necessary to assure that the list of ocean dumping sites accurately reflects earlier rulemaking and also to assure that unnecessary sites are removed from the list.

Abstract: On August 15, 1985, the Agency promulgated generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes. These standards applied to management and disposal of such materials generated by activities under the jurisdiction of the Department of Energy or regulated by the Nuclear Regulatory Commission. They established limits for the release of radioactive materials to the environment. Subsequent to promulgation of this rule, several petitions for review were filed and consolidated in the U.S. Court of Appeals for the First Circuit. On September 23, 1987 the Court vacated and remanded Subpart B of the Standards to the Agency for revision consistent with its ruling.

The SDWA requires EPA to promulgate national primary drinking water regulations for 83 specific contaminants of which arsenic is one. The SDWA directs EPA to promulgate MCLGs at a level at which, in the Administrator's judgment, "no known or anticipated adverse effects on the health of persons occur

and which allows for an adequate margin of safety." MCLs are the federally enforceable standards and are set as close to the MCLGs as is feasible, taking costs into consideration.

3351. NATIONAL PRIMARY DRINKING WATER REGULATIONS: CONTAMINANTS FROM FIRST DRINKING WATER PRIORITY LIST (PHASE VI)

Significance: Regulatory Program

Legal Authority: 42 USC 300/SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: NPRM, Statutory, January 1, 1990. Final, Statutory, January 1, 1991.

Abstract: This rule will set MCLGs and NPDWRs for 25 contaminants from the first Drinking Water Priority List, as required by the SDWA of 1986. The SDWA requires regulation of at least 25 contaminants every three years starting in 1991. The SDWA directs EPA to promulgate MCLGs at a level at which, in the Administrator's judgment, "no known or anticipated adverse effects on the health of persons occur and which allows for an adequate margin of safety." MCLs are the federally enforceable standards and are set as close to the MCLGs as is feasible, taking costs into consideration.

Legal Authority: 42 USC 300/SDWA 1412; 42 USC 300(b)/SDWA 1401

CFR Citation: 40 CFR 141

Legal Deadline: None

Abstract: This action will replace September 1986 versions of EPA methods 502.1, 502.2, 503.1, 504, 524.1 and 524.2 for monitoring of eight regulated (section 1412) VOCs and for 51 unregulated (section 1445) VOCs with December 1988 version of the same methods. Also, this action will allow the use of the same updated methods 502.1, 502.2, 503.1, 524.1, and 542.2 for compliance monitoring of trihalomethanes (THMs) in drinking water under section 141.30.

Legal Authority: 42 USC 300f/SDWA 1421 to 1425

CFR Citation: 40 CFR 147

Legal Deadline: None

Abstract: The Safe Drinking Water Act (SDWA) requires EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. EPA is proposing amendments to its Underground Injection Control (UIC) program regulations for the Osage Mineral in Oklahoma (40 CFR 147 Subpart GGG) to allow the Regional Administrator flexibility to waive certain technical requirements for temporary abandoned wells and to designate a portion of the Happy

Hollow and Z-Sand aquifers in Western Osage County, Oklahoma as exempted aquifers. The proposed changes will provide the Regional Administrator with the same flexibility that presently exists in the generic Federal regulations (40 CFR 144.28(c)(2)(iv) and 144.52(a)(6)) to waive certain technical requirements applicable to active injection wells upon a demonstration by the owner or operator that the well will not endanger underground sources of drinking water during the period of temporary abandonment.

Legal Authority: 42 USC 300f/SDWA 1421 to 1425

CFR Citation: 40 CFR 144; 40 CFR 146

Legal Deadline: None

Abstract: Part C of the SDWA directs EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. The greatest number of injection wells are Class II (oil and gas related) wells operated by the petroleum industry for disposal of produced brines and enhanced recovery projects. EPA is considering proposing standards for all newly constructed or converted (from production operations) Class II injection wells. These standards may establish new or incremental performance criteria to ensure protection of underground sources of drinking water (USDWs).

Legal Authority: 42 USC 300f/SDWA 1421 to 1425

CFR Citation: 40 CFR 144; 40 CFR 145; 40 CFR 146

Legal Deadline: None

Abstract: The SDWA requires EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. Previously promulgated regulations specified minimum standards and technical requirements for Class I-IV wells. Class V wells, such as certain septic systems and a variety of drainage wells, are the subject of this action. EPA intends to establish a regulatory framework for the management of these wells that will protect against contamination of groundwater while recognizing the difficulties of this diverse well class. Development of any regulatory program will focus on providing maximum flexibility to state, sub-state, and local entities. EPA will characterize risks associated with various Class V injection wells since data are unavailable for risk assessments on an individual subcategory basis.

Abstract: These amendments to the UIC Program clarify the intent of the regulations covering authorization-by-rule requirements at 40 CFR Part 144, Subpart C. These new provisions will clarify how existing injection wells become authorized by rule and when injection is prohibited for failure to comply with authorization- by-rule requirements. EPA has proposed amendments to the noncompliance and program reporting requirements at 40 CFR 144.8; to the mechanical integrity requirements at 40 CFR 144.28(f) and 144.51(p). Finally, a new regulation will codify SDWA 1445(a)(1) as it applies to the UIC program.

Legal Deadline: NPRM, Judicial, April 30, 1989. Final, Judicial, December 31, 1990.

Abstract: EPA is promulgating maximum contaminant level goals (MCLGs) and National Primary Drinking Water Regulations (NPDWRs) for 38 synthetic organic chemicals and inorganic chemicals. The NPDWRs consist of maximum contaminant levels (MCLs), as well as monitoring, reporting, and public notification requirements for these contaminants. This action specifies the best available technology (BAT) upon which the MCLs are based and BAT for the purposes of issuing variances and exemptions to public water systems. In addition to the NPDWRs for the synthetic organic chemicals and inorganic chemicals, the notice requires monitoring for other synthetic organic chemicals which are not currently regulated by NPDWRs.

The incorporation by reference material has not been updated since 1984. Any Federal enforcement action in a primacy State will be based on the codified Part 147 material no matter

Abstract: Following a major oil spill with substantial environmental impacts

(i.e., Ashland Oil in Floreffe, PA in January, 1988) an interagency task force reviewed the adequacy of regulations concerning the prevention and control of oil spills. The task force recommended an upgrade to the Oil Pollution Prevention Regulation and an inventory of the regulated community. A two-phased regulatory approach is being pursued. In Phase I, the existing regulation will be clarified to indicate that widely accepted industry practices that are currently treated as recommended practices henceforth may be considered as required practices. The Phase II regulatory effort may address other recommended modifications, such as contingency planning.

Legal Authority: PL 100-556/Sections 101-103

CFR Citation: 40 CFR 234

Legal Deadline: Final, Statutory, October 28, 1990.

Abstract: Plastic ring carriers have been found in the marine environment and fish and other wildlife have become entangled in them. Ring carriers were identified as an article of concern in the marine environment in EPA's February 1990 report to Congress on plastics. Congress has determined that degradable carriers should reduce the incidence of entanglement and has directed EPA to develop regulations that ring carriers be made of degradable material unless EPA finds that degradable rings pose more risk than non-degradable rings. EPA will specify timeframe and testing methods. Nearly half of the States currently require degradable rings. Nearly all rings manufactured in the US are currently degradable.

CFR Citation: 40 CFR 268

Legal Deadline: None

Abstract: The Agency is considering a regulation that further specifies the process for operators to apply for and receive variances that would allow the land disposal of untreated hazardous wastes that have been prohibited from land disposal under 40 CFR 268. The variance would be available for land disposal units that demonstrate that

there will be no migration of hazardous constituents from the unit for as long as the waste remains hazardous.

Abstract: This amendment may allow EPA to modify a permit to correct an inadvertent omission of an applicable requirement under RCRA which is in effect prior to the data of permit issuance. The permit correction would follow the modification procedures in 40 CFR 124. Citizens would be able to request such a correction using existing procedures in 40 CFR 124.5.

Abstract: Based on preliminary data, EPA has determined a need to develop a management scheme for handling and disposing of municipal waste combustor ash. The 101st Congress is considering several legislative initiatives which would regulate all ash from municipal waste combustors (MWC) under Subtitle D of RCRA and require EPA to develop management standards for the treatment, transportation, storage, disposal, and recycling/reuse of MWC ash. Once such legislation is enacted, EPA will publish its schedule for the proposal and final promulgation of ash regulations.

EPA, 852 F.2d 1316 (DC Cir. 1988) and has further completed a Section 8002 study and an accompanying Report to Congress addressing those processing wastes excluded from Subtitle C regulation by the "Bevill Amendment" 3001(b)(3)(A) RCRA. RCRA Section 3001(b)(3) requires the Agency, after public hearing and public comment, to determine within six months of submitting the report, whether to regulate any of these wastes under RCRA Subtitle C.

Abstract: EPA is considering a rule which would broaden an existing exemption in 40 CFR 261.4(c), currently limited to product or raw material vessels, to all vessels. The result of this change would be a consistent regulation for all vessel operators, both product and non-product. In all cases, hazardous wastes generated on-board ships would not be subject to the RCRA regulations for storage, manifesting, etc., until the waste is removed from the ship. The discharge of any wastes while underway is governed by regulations issued under the provision of the Clean Water Act, Rivers and Harbors Act, Refuse Act, CERCLA/SARA, and others.

Legal Authority: RCRA 3002(a)(c)

CFR Citation: 40 CFR 262.41; 40 CFR 264.75; 40 CFR 271.10

Legal Deadline: None

Abstract: This amendment may require States to modify their hazardous waste reporting system to collect additional data elements from their large quantity generators and treatment, storage, and disposal (TSDs) facilities. Currently, States are required to collect only minimal data from generators on quantities and types of waste generated and how such waste are managed at TSDs. Such data are not sufficient for EPA to understand in any level of detail the demographics of hazardous waste generation and management in this country, and whether our regulations are having a desired effect. These minimal data requirements were established in 1985 with the codification of parts 40 CFR 262.41 (generators) and 40 CFR 264.75 and 40 CFR 265.75 [TSDs].

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 265; 40 CFR 270

Legal Deadline: None

Abstract: Section 3004(o)(7) authorizes EPA to promulgate standards for the location of new and existing hazardous waste treatment, storage, and disposal facilities. EPA will amend existing floodplain and seismic zone standards promulgated in 1981, and will develop new standards that address a broader continuum of locations.

EPA is considering a rule which would use a twofold approach. The standards would first emphasize incentives to encourage siting of new facilities in environmentally-preferable settings. Incentives may include amending current financial assurance requirements for facilities in some settings or improving public access to a facility's location information. Second, EPA may expand existing standards for units in sensitive locations. Sensitive locations in addition to those addressed in 1981 may include wetlands, karst terraines, unstable areas and high resource-value groundwaters.

EPA's goal is to ensure that new facilities site in the most suitable locations and that existing ones adopt operating practices which minimize catastrophic waste releases. (cont)

Abstract: These regulations will provide alternate closure options for EPA and authorized states to establish closure and post-closure requirements on a site-specific basis. The regulations address waste and site characteristics, potential pathways of hazardous constituent migration, and health effects. These rules allow for cover systems to be designed base on unique site and waste characteristics. EPA originally proposed this rule on March 19, 1987 (52 FR 8712); the Agency will repropose the rule.

Abstract: This regulation will address a petition for rulemaking submitted by the Boeing Company, requesting that EPA amend several hazardous waste tank system requirements as applied to certain existing sumps. A sump is a type of tank. The petition focuses on those existing sumps that are situated inside of buildings and constructed as an integral part of the building's floor or foundation. The petitioner argues that because of differences in design, construction, and use, these sumps should be regulated independently of other hazardous waste storage/treatment tank systems.

Legal Deadline: None

Abstract: The Agency has decided to treat Indian Tribes as States for purposes of the Subtitle C program. This regulation will establish the definition of an Indian Tribe and the criteria an Indian Tribe must meet in order to be treated as a State for authorization purposes. Since the Agency also decided that Indian Tribes may be authorized for partial programs (States are not allowed partial State programs under RCRA authorization), the regulation will address this program difference. The regulation will also address Indian capability, including criminal enforcement capability. This regulation fulfills EPA's stated 1984 Indian Policy by ensuring the close involvement of tribal governments in making decisions and managing environmental programs affecting reservation lands.

Significance: Regulatory Program

Legal Authority: 42 USC 6941 to 6949 /RCRA 4001-4009

CFR Citation: 40 CFR Not yet determined

Legal Deadline: None

Abstract: Based on the first mining waste Report to Congress submitted 12/31/85, comments on the report, and other available information, EPA has determined that regulation of wastes from the extraction and beneficiation of ores and minerals under Subtitle C of the Resource Conservation and Recovery Act (RCRA) is not warranted at this time (51 FR 24496). Instead, EPA plans to develop a program for mining waste under Subtitle D of RCRA, working with the States to determine the specific nature of their current mining waste activities and their future plans to administer such programs. EPA will propose a set of criteria for the proper disposal of mining wastes under RCRA Subtitle D authority. EPA will also work with other Federal agencies (e.g., DOI, USGS) to avoid duplication in regulatory efforts.

Legal Deadline: None

Abstract: In response to the shortage of waste landfill capacity, EPA issued in 1989 a strategy for improving the nation's management of municipal solid waste (MSW). As part of this strategy, EPA set a national goal of 25% source reduction and recycling by 1992.

In 1989, EPA proposed air standards for new and existing municipal waste combustors (MWC) that included a 25% mandatory material separation provision. EPA is considering whether to publish a source separation proposal appropriate for MSWLFs. This proposal is in keeping with the general statutory objectives of Subtitle D of RCRA.

Legal Authority: 42 USC 6945/RCRA 4005

CFR Citation: 40 CFR 239

Legal Deadline: None

Abstract: Regulations will describe procedures EPA will use to make determinations of adequacy for State Solid Waste permitting programs, as required by Section 4005 of the Solid Waste Disposal Act, as amended (RCRA). This state adequacy determination regulation is critical to the successful implementation of the Revised Criteria. Section 4005(c)(1)(B) requires States to adopt and implement a permit program, or other system of prior approval, within 18 months after the promulgation of revised criteria under Section 4004(a), as required by Section 4010(c). Section 4005(c)(1)(C) requires the Administrator to determine whether each State has developed an "adequate permit program" under this paragraph.

3396. UNDERGROUND STORAGE TANKS CONTAINING HAZARDOUS SUBSTANCES - FINANCIAL RESPONSIBILITY REQUIREMENTS

Legal Authority: 42 USC 6991 /RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: Final, Statutory, August 8, 1988.

Abstract: This regulation will establish, under Subtitle I of RCRA (as amended by SARA), requirements for demonstrating financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by releases from underground storage tanks (USTs) containing hazardous substances. An ANPRM was published to help gather data (e.g., frequency of releases from such USTs, costs of corrective action and third-party damages, and the regulated community's financial condition and use of financial assurance mechanisms) needed for the development of a proposed rule.

Legal Authority: 42 USC 6921/42 USC 6921/42 USC 6991

Abstract: This rule will extend the October 26, 1990, financial responsibility compliance date for one year. Based on an on-going review of financial assurance markets, EPA is concerned that financial assurance mechanisms are not becoming available rapidly enough to meet the needs of tank owners that have to comply by October 26, 1990. Therefore, EPA has decided to modify this compliance date.

3398. MEDICAL WASTE DEMONSTRATION TRACKING PROGRAM

Significance: Regulatory Program

Legal Authority: 42 USC 6992/Medical Waste Tracking Act

CFR Citation: 40 CFR 259

Legal Deadline: Other, Statutory, May 30, 1989.
The legal deadline prescribed is for an interim final rule by May 1989.

Abstract: Because of the numerous incidents of public exposure to improperly disposed medical waste Congress passed the Medical Waste Tracking Act of 1988. The Act requires EPA to develop a two-year demonstration tracking program for medical waste. The demonstration program sets forth segregation, packaging, labeling, tracking, transportation, and recordkeeping requirements of medical waste generated in the covered States, and lists the wastes to be covered by the program. The emphasis of the tracking program is to assure the generator that the waste is delivered to a proper disposal facility. States participating in the program include New York, New Jersey, Connecticut (effective 6/22/89), Rhode Island, and Puerto Rico (effective 7/24/89).

CFR Citation: 40 CFR 257; 40 CFR 258

Legal Deadline: Final, Statutory, March 31, 1988.

Abstract: The Hazardous and Solid Waste Amendments of 1984 (HSWA) require that EPA, by March 31, 1988, revise the Subtitle D criteria for facilities that may receive hazardous household wastes or hazardous wastes from small quantity generators. In response to this statutory mandate, EPA is revising the Subtitle D criteria for municipal landfills. The statute requires that, at a minimum these criteria include groundwater monitoring requirements, location standards, and corrective action requirements as appropriate.

Abstract: This amendment as proposed will generally require those who submit delisting petitions for hazardous wastes to provide groundwater monitoring data as part of their petition. The amended regulations will clarify the Agency's existing authority to consider the impact of a petitioned waste on groundwater and deny a petition based on groundwater contamination. EPA is seeking this amendment to clarify its authority to request and consider such data in delisting decisions.

Abstract: Burning of hazardous waste in boilers and industrial furnaces for the purpose of heat recovery or material recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish standards for controlling emissions of organic compounds, metals, and hydrogen chloride from boilers and industrial furnaces that burn hazardous waste for any purpose, including energy recovery, material recovery, or destruction. It also considers questions on status of residues from Bevill devices burning non-Bevill hazardous wastes.

Legal Deadline: NPRM, Statutory, May 8, 1987.

Abstract: EPA has proposed these regulations under the authority of section 3004(a) and 3004(o)(4) of the Resource Conservation and Recovery Act. The regulations, as proposed, would require: 1) new landfills, surface impoundments, waste piles, and land treatment units for the treatment, storage, or disposal of hazardous wastes to utilize an approved leak detection system; 2) double liners and leachate collection systems for waste piles, and certain landfills and surface impoundments; and 3) development of a construction quality assurance program for certain landfills and surface impoundments, as well as final covers at land treatment units. EPA originally proposed this rule on May 29, 1987 (52 FR 20218); the Agency may repropose the double liner sections of the rule.

Abstract: Currently, wastewater treatment units and elementary neutralization units are exempt from the requirements in 40 CFR Parts 264, and 265 (see 45 FR 76074, November 17, 1980). As proposed, this rule would amend the regulations to explain more clearly that thermal treatment units, except sludge dryers, are not exempt from regulation under the "wastewater treatment unit exclusion." It was never EPA's intention that thermal treatment units be exempt from regulation. Rather, specific regulations have been developed for these devices.

3414. TECHNICAL AMENDMENT TO FINAL UNDERGROUND STORAGE TANK RULES FOR OVERFILL PREVENTION

Legal Authority: 42 USC 6991(b)/RCRA 9003(b)

CFR Citation: 40 CFR 280.20(c)

Legal Deadline: None

Abstract: This action as proposed adds a provision to the overfill prevention equipment requirements that provides a performance standard alternative to the two design choices already in the final Underground Storage Tanks (UST) regulations. This clarifies EPA's interpretation of the "other alternatives allowed" provision in the final UST regulations. The added flexibility of meeting a performance standard will more clearly enable UST system owners and operators to use overfill prevention equipment in a manner that is more flexible as long as it is protective of human health and the environment.

Legal Authority: 42 USC 6991/RCRA 9003

CFR Citation: 40 CFR 24

Legal Deadline: None

Abstract: This proposed rule will define the administrative procedures for the

EPA—RCRA

Final Rule Stage

issuance of and hearings of RCRA Section 9003(h) corrective action orders regarding underground storage tanks. The rule would extend the applicability of existing administrative procedures for similar corrective action orders under Section 3008(h) of RCRA. The rule is a minor one. The rule would only affect the issuance of federal corrective action orders since states are governed by their own administrative procedures.

Legal Authority: 42 USC 6921/42 USC 6921/42 USC 6991

CFR Citation: 40 CFR 280; 40 CFR 281

Legal Deadline: None

Abstract: This rule extends the April 26, 1990, financial responsibility compliance date for one year. Based on an on-going review of financial assurance markets, EPA was concerned that financial assurance mechanisms were not becoming available rapidly enough to meet the needs of tank owners that must comply by April 26, 1990. Therefore, EPA has decided to modify this compliance date.

Abstract: Recent scientific evidence indicates the risks of ozone depletion may be greater than expected. In response, the international community has completed negotiations in London in June, 1990 strengthening the Montreal Protocol to further restrict or phase-out substances that deplete ozone. EPA estimates that the cumulative cost to completely phase-out CFCs and halons by the year 2000 is approximately $2.7 billion. In addition, EPA has entered into a consent decree to promulgate regulations to protect the stratospheric ozone layer taking into consideration the protocol changes agreed to in London.

Abstract: EPA is reassessing health and welfare information which has become available since the last revision of the standard. In May 1989 EPA received closure on the scientific and technical adequacy of the ozone staff paper. In order to retain a unified regulatory review package in light of the emerging data base on health and welfare effects associated with longer-term averaging times, EPA is continuing the standard review until such information is published and a decision made on the appropriate standards choice. The major issue is whether the new information will indicate that new standards with longer-term averaging times are required to protect public health and welfare or whether adequate protection is afforded by the current form and averaging time of the standard.

Significance: Regulatory Program

Legal Authority: 42 USC 7408 /CAA 108; 42 USC 7409 /CAA 109

Legal Deadline: None

Abstract: On July 1, 1987, EPA issued an ANPRM soliciting public comment on the development of a new secondary (welfare-based) NAAQS for fine particles (those particles less than 2.5 micrometers in aerodynamic diameter). This action represents a continuation of the review process for the secondary standards for particulate matter discussed by the Agency on March 20, 1984 (49 FR 10408). The principal welfare effect to be addressed by such a standard is impairment of visibility. Once a decision on whether and how to proceed is reached, a schedule for further action will be developed.

Significance: Regulatory Program

Legal Deadline: NPRM, Judicial, February 1, 1991. Final, Judicial, October 16, 1991.
Final rule must be signed by the Administrator no later than six months following the close of the public comment period.

Abstract: EPA will conduct rulemaking on whether to require emission limits representing best available retrofit technology for the Navajo Generating Station to remedy winter impairment in the Grand Canyon National Park. EPA's authority to promulgate a federal implementation plan arises from Arizona's default on its obligation to submit state implementation plan revisions implementing EPA's 1980 visibility regulations under section 169(a). EPA is under court order to issue rulemaking notices by dates certain pursuant to a consent decree in a citizen suit.

3441. NESHAP: COKE OVEN EMISSIONS FROM COKE OVEN CHARGING, DOOR LEAKS, AND TOPSIDE LEAKS ON WET-COAL-CHARGED BATTERIES

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: NPRM, Statutory, March 1985.

Abstract: This regulation would control coke oven emissions, which have been listed hazardous under section 112. It would require improved maintenance and operation to limit visible emissions from wet-coal-charged coke oven batteries. The standards may apply to charging and leaks from doors, lids, or offtakes for all existing or new sources.

Abstract: EPA issued a notice of intent to list chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds. A preliminary assessment performed by EPA has identified chromium electroplating as a source category which emits significant quantities of chromium to the atmosphere and for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and standards will be proposed.

Abstract: An NSPS was proposed for this source category in 1980. Subsequently, in 1987, the Agency solicited public participation in information gathering in preparation for a decision on whether to regulate this source category under the NESHAP

program, the NSPS program or both. NESHAP regulations are being developed which would apply to organic solvent cleaners (degreasers) and would control emissions of perchloroethylene, methylene chloride, 1,1,1-trichloroethane, and trichloroethylene from new and existing sources. The emissions reduction techniques that would be combinations of add-on controls, hardware and improved operating practices.

Abstract: EPA will evaluate the imposition of requirements for passenger cars and light trucks for on-board vehicle diagnostic systems capable of detecting operational malfunctions within the emissions control system. Emission system failures often go undetected or are misdiagnosed resulting in excess emissions of carbon monoxide, hydrocarbons, and oxides of nitrogen. On-board diagnostic systems, which are required in the California vehicle emissions program beginning with the 1988 model year, have the potential for improving air quality through the early detection and proper repair of emission system failures. This regulatory effort will be structured to complement existing and future State and local inspection and maintenance programs.

3455. REVISIONS TO THE STACK HEIGHT REGULATION

Legal Authority: 42 USC 7423/CAA 123

CFR Citation: 40 CFR 51.100

Legal Deadline: None

Abstract: Under the Clean Air Act, emission limitations for sources are generally determined on the basis of local, ground-level concentrations of pollutants. In the absence of laws and/or regulations prohibiting such action, a source could lower the local ground-level ambient pollutant concentrations not only by reducing the amount of pollutants it emits into the air, but also by raising the physical height of its stack or using other dispersion techniques. Section 123, which was added to the CAA by the 1977 Amendments, restricts the manner in which techniques for dispersion of pollutants from a source may be considered in setting emission limitations. The EPA promulgated the current stack height regulation on July 8, 1985. On January 22, 1988, the U.S. Court of Appeals for the D.C. Circuit upheld EPA's regulation except for three provisions which were remanded to the Agency for proceedings consistent with the court's opinion. The purpose of this action is to revise the stack height regulation in accordance with the January 22, 1988 court decision. (cont)

ABSTRACT CONT: The court remanded two grandfathering provisions which allow dispersion credit, including credit for certain stack height increases. The decision also remanded the allowance of dispersion credit for sources with originally designed and constructed merged stacks. The court concluded that exclusion of these groups of sources from the regulation's restrictions was not adequately supported. The EPA is analyzing the court decision to determine whether further support should be offered for the current provisions or whether the regulations should be revised to limit or delete these exclusionary provisions.

3456. ALTERNATIVE TEST PROCEDURE FOR THE VOLUNTARY AFTERMARKET PART CERTIFICATION PROGRAM

Legal Authority: 42 USC 7541(b)/CAA 207(b)

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: This action would consider an alternative testing procedure to be used in the voluntary aftermarket part certification program for certifying aftermarket parts. Currently only the full Federal Test Procedure and Emission Critical Parameters for Specified Parts are acceptable test procedures for this program. On December 14, 1989 (54 FR 51306), a Federal Register notice was published to announce that the public comment period was extended to January 10, 1990. Based on the public comments received and further analysis; EPA is developing a supplemental notice of proposed rulemaking.

Legal Authority: 42 USC 7545(e) / CAA 211(e)

CFR Citation: 40 CFR 79; 40 CFR 80

Legal Deadline: Final, Statutory, August 7, 1978.

Abstract: The CAA requires that testing protocols be developed to address at a minimum, the possible carcinogenic, mutagenic, and teratogenic effects of fuels and fuel additives as well as that reasonable and necessary information be obtained on their effect on welfare and emission control devices. This action would implement protocols for such testing, which would have to be performed prior to fuel additive registration. Fuels and additives already registered or for sale would also have to undergo testing, as provided for by the CAA.

3463. TREATMENT, STORAGE, AND DISPOSAL FACILITY AREA SOURCE AIR EMISSIONS - RCRA STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004, 3007

CFR Citation: 40 CFR 264 Subpart X; 40 CFR 264 Subpart AA; 40 CFR 264 Subpart BB; 40 CFR 264 Subpart CC; 40 CFR 265 Subpart I; 40 CFR 265 Subpart J; 40 CFR 265 Subpart AA; 40 CFR 265 Subpart BB; 40 CFR 265 Subpart CC

Legal Deadline: None

Abstract: The purpose of this action is to investigate the health impact of non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Area sources include surface impoundments, landfills, waste piles, land treatment operations and waste water treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment. The Agency has adopted a three-phase approach, with Phase I concerning organic emission leaks and vents, Phase II concerns hazardous waste storage tanks and impoundments, and Phase III deals with residual risks from particular hazardous organic constituents. Phase I and II actions are covered in this item; for Phase III actions, see separate item entitled "Individual Constituent Standards: Phase III of RCRA Air Emission Standards".

Significance: Regulatory Program

Legal Authority: 42 USC/RCRA 3004 and 3007

CFR Citation: 40 CFR Subparts I to N

Legal Deadline: None

Abstract: Under RCRA, the Agency is required to promulgate standards for monitoring and control of air emissions from hazardous waste treatment, storage, and disposal facilities (TSDF), as necessary to protect human health and environment. Phase I and II of the TSDF project limit organic air emissions as a class at TSDF that are subject to regulation under Subtitle of RCRA. Phase I and Phase II actions are covered under a separate item in this Agenda entitled "Treatment, Storage, and Disposal Facility Area Source Air Emissions — RCRA Standards". The residual risk values following Phases I and II are higher than the historical RCRA range. The Phase III project will use new data on TSDF to perform site-specific modeling of high risk facilities. Possible outcomes include the following (1) Additional RCRA 3004(n) standards for particular hazardous organic constituents, (2) a guidance document for RCRA permit writers, or (3) no additional action.

3465. ● REORGANIZATION OF 40 CFR PART 86, SUBPART A

Legal Authority: 42 USC 7521; 42 USC 7522; 42 USC 7524; 42 USC 7525; 42 USC 7541; 42 USC 7542; 42 USC 7549; 42 USC 7550; 42 USC 7601

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will reorganize Subpart A of 40 CFR Part 86 to be consistent with the other subparts of Part 86. This action will not amend Subpart A in any substantive way; the stringency of standards, test procedures, and recordkeeping burden will remain unchanged. Due to the minor nature of this action, a direct final rule is planned.

Legal Authority: 42 USC 7414; 42 USC 7545; 42 USC 7601

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: This action will modify 40 CFR Part 80 to delete outdated sections applicable to gasoline retailers and wholesale purchase- consumers which require certain of these parties to offer for sale at least one grade of unleaded gasoline. Since unleaded gasolines of various grades are now widely available at virtually every retailer, this requirement is no longer necessary. This action will also correct a typographical error in the current regulation. Due to the nature of this action, a direct final rule is planned.

Significance: Agency Priority

Legal Authority: PL 100-202

CFR Citation: 40 CFR 81

Legal Deadline: NPRM, Statutory, August 31, 1988.

Abstract: On June 6, 1988 (53 FR 20722), the EPA, as directed by the Mitchell-Conte Amendment of December 22, 1987 (contained in the continuing resolution of 1987, Pub. L. 100-202), proposed to designate as nonattainment under the CAA those areas throughout the nation that have not attained the NAAQS for either ozone or carbon monoxide (CO). Because this action would be superseded by provisions of pending CAA amendment, this project is currently on hold.

CFR Citation: 40 CFR 50.4; 40 CFR 50.5

Legal Deadline: Final, Statutory. Reviews due by December 31, 1980 and at 5-year intervals thereafter.

Abstract: EPA has reviewed the scientific criteria used as a basis for establishing ambient air quality standards for sulfur oxides. The Agency will revise the standards if and as appropriate to protect public health and welfare. On April 26, 1988, EPA announced its proposed decision not to revise the current standards. The notice also solicited comment on the alternative of adding a new 1-hour standard and certain other revisions.

Significance: Regulatory Program

Legal Authority: 42 USC 7401 et seq/CAA

CFR Citation: 40 CFR Not applicable

Legal Deadline: None

Abstract: The EPA is developing a program to deal with the many areas in the country that did not attain the national ambient air quality standards (NAAQS) for ozone and carbon monoxide (CO) by December 31, 1987, the latest date for attainment expressly identified in the Clean Air Act. This notice describes EPA's views about how EPA should interpret the Act so as to bring those areas into attainment. CFR Citation: 40 CFR 60

Legal Deadline: NPRM, Judicial, November 30, 1989. Final, Judicial, December 31, 1990.

Abstract: The EPA has completed a preliminary assessment of air emissions from municipal waste combustors (MWC). Based on this assessment, EPA has concluded that MWC emissions may reasonably be anticipated to

contribute to the endangerment of public health and welfare. As a result, EPA issued a notice in the Federal Register (52 FR 25399) that announces its intent to regulate emissions from new and modified MWC under Section 111(b). Pollutants to be regulated will include one or more designated pollutants (pollutants not regulated under Sections 108-110 or 112) thus invoking Section 111(d) which will require States to develop additional emissions standards for existing MWC based on EPA guidelines.

Emission standards for new municipal waste combustors (MWC) and emission guidelines for existing MWC's were proposed on December 20, 1989 (54 FR 52251) limiting emissions of MWC organics (dioxin/furan), MWC metals (particulate matter), and MWC acid gases (sulfur dioxide/nitrogen chloride). The standards and guidelines also proposed various MWC operating and MVC operator training (cont)

Significance: Regulatory Program

Legal Authority: 42 USC 7401 /et. seq CAA

CFR Citation: 40 CFR 50; 40 CFR 52

Legal Deadline: None

Abstract: Since 1977, EPA has allowed States with rural fugitive dust areas (RFDAs) to discount fugitive dust in developing and enforcing a State Implementation Plan (SIP) for attainment and maintenance of the NAAQS for particulate matter (PM). On July 1, 1987, EPA promulgated revisions to its particulate matter National Ambient Air Quality Standards (NAAQS), 52 FR 24634. In this notice, EPA also solicited comments on alternatives for SIP requirements for RFDAs and on the adequacy of the definitions which are used in identifying RFDAs, and the importance of protecting annual versus 24-hour NAAQS (52 FR 24716). The EPA will issue its decision after considering public comments on the alternatives. The EPA will continue its existing fugitive policy and apply it to implementation of the revised particulate standard until a decision is made.

Abstract: The Agency is considering revisions to the Asbestos NESHAP to enhance enforcement and promote compliance with the standards. The revision would require monitoring and proper operation and maintenance of air pollution control devices used by asbestos milling, manufacturing, and fabricating sources. It also would require additional clarifications to work practice and would add additional recordkeeping provisions for demolition and renovation operations, including asbestos waste disposal.

Significance: Regulatory Program

Legal Authority: 42 USC 7476/CAA 166

CFR Citation: 40 CFR 52.21; 40 CFR 51.166

Legal Deadline: Final, Statutory, July 1, 1989.

Abstract: The purpose of this action is to promulgate prevention of significant deterioration "increments" for the new indicator for particulate matter, PM10. The existing PSD program has particulate matter increments based on the original TSP indicator. On July 1, 1987, the EPA promulgated a PM10 NAAQS to replace the original TSP-based particulate matter NAAQS. Therefore, EPA is preparing to revise the PSD program by promulgating PM10 increments in accordance with Section 166 of the Clean Air Act. The EPA has entered into a consent decree with the Oregon National Resources Council and other plaintiffs, which settled a lawsuit brought by these plaintiffs, regarding the promulgation of PM-10 PSD regulations. For the consent decree, EPA agreed to promulgate such regulations by June 30, 1991 if the President by that date has not signed legislation amending the Clean Air Act that contains provisions relating to PM-10. If such legislation is signed by that date, EPA agreed to promulgate the regulations within two years of enactment.

Significance: Agency Priority

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In conjunction with testing in support of EPA's regulatory effort to control motor vehicle vapor emissions, EPA determined that significant evaporative hydrocarbon emissions can occur when a motor vehicle is running. Such emissions are defined by EPA as "running losses." Testing has shown that running losses can be particularly high on hot summer days which are also conducive to ozone formation. Through this action, EPA will evaluate revisions to the motor vehicle test procedures for evaporative hydrocarbons in order to reduce running losses. EPA published a notice of proposed rulemaking on January 19, 1990; the public comment period was extended to June 5, 1990.

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202; 42 USC 7525 / CAA 206

Abstract: Evaporative hydrocarbons emitted during vehicle refueling contribute to the failure of many urban areas to attain the National Ambient Air Quality Standard for ozone. The Bush Administration's recently proposed Clean Air Act amendments would delete section 202(a)(6) and substitute a requirement for Stage II controls. Congress is considering statutory provisions regarding onboard refueling controls and Stage II as part of the Clean Air Act Amendments.

Significance: Agency Priority

Legal Authority: 42 USC 7521 /CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: EPA's current carbon monoxide (CO) emission standards are applicable to the 68 degree to 86 degree fahrenheit temperature range of the current Federal Test Procedure. Since CO emissions are higher at colder ambient temperatures, and since CO ambient air quality problems occur primarily under ambient temperature conditions less than 68 degrees farenheit, EPA is considering the adoption of CO emission standards applicable to 20 degrees fahrenheit.

Legal Authority: 42 USC 7524 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upper limits and penalty rates for 1991 through 1993 model year emission standards for heavy-duty vehicles and engines. The availability of NCPs will allow a manufacturer, whose vehicles or engines fail to conform with certain applicable emission standards, but which do not exceed a designated upper limit, to be issued a certificate of conformity upon payment of a monetary penalty. This rule is the third phase of NCP rulemaking. The first, published August 30, 1985, established generic aspects of NCPs. The second, published December 31, 1985, addressed NCPs applicable to 1987 through 1990 model years. The notice of proposed rulemaking was published on April 25, 1990 and the public comment period closed on May 25, 1990.

Abstract: This action will consider allowing alternative dynamometer specifications for an existing loaded-mode short test approved for use in State and local inspection/maintenance programs in conjunction with the federal emissions performance warranty regulations. The alternative specifications the Agency is considering would allow lower loading, perhaps varying by engine size. Such a change could improve overall test effectiveness for identifying excess in-use emissions and correlation with the Federal Test Procedure. CFR Citation: 40 CFR 302; 40 CFR 302.4; 40 CFR 261.31

Legal Deadline: None

Abstract: The Agency is proposing to adjust the reportable quantities (RQs) for waste streams FO37 and FO38 (sludges from petroleum refinery separation processes) under CERCLA, as amended. In a final rule published in the same Federal Register, EPA designates waste streams FO37 and FO38 as hazardous under CERCLA and assigns each of them a statutory RQ of one pound. In this proposed rule, the Agency is exercising its authority under section 102(a) of CERCLA by proposing to adjust the statutory RQs for waste streams FO37 and FO38 to one pound.

Significance: Agency Priority

Legal Authority: 42 USC 9615/CERCLA 115

CFR Citation: 40 CFR 2; 40 CFR 300; 40 CFR 306

Legal Deadline: None

Abstract: Under CERCLA, potentially responsible parties defined under Section 107(a) are liable for the cost of cleanup of superfund sites. It is Agency policy to pursue those potentially responsible parties in court for costs expended if a cleanup settlement is not reached. Rulemaking will present the Agency's views on how to identify the specific recoverable costs, the documentation supporting EPA's cost recovery efforts. Rulemaking can be used to present the Agency's views on how to identify the specific recoverable costs, the documentation sufficient to prove EPA's case, and the documents that will be available to PRPs. The cost recovery regulation is designed to make the process more efficient and less burdensome from litigation point of view. The regulation will address issues such as: direct costs, indirect costs, recovery of interest, and oversight costs.

Abstract: Subpart K of the NCP, entitled "Federal Facilities," is a roadmap to the entire NCP for Federal facilities, and it consolidates in one subpart of the NCP references to the requirements in the other subparts that Federal agencies must follow when conducting CERCLA response actions where the release is on, or where the sole source of the release is from, their facility. It also codifies certain other provisions of Section 120 of CERCLA relating to federal facilities.

Abstract: EPA is considering proposing a rule to set out a uniform process of review of petitions for reimbursement of the costs filed by parties who have been ordered to clean up Superfund sites.

A uniform process would expedite EPA consideration of these petitions and would save the Agency time and resources in litigation, if a court finds that the Agency's procedures would take the place of a de novo review.

Legal Authority: 42 USC 11013

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: This proposed regulation would expand and make mandatory, reporting of waste minimization/pollution prevention actions in connection with TRI reports. The reports would identify the quantity of reduction, the type of source of the reduction, and the reasons for the reduction. These reports would be used by the Agency and others to identify significant advances in pollution prevention occurring in the manufacturing sector. Alternative data collection under consideration include facility-wide reporting for individual chemicals; reporting for individual pollution prevention projects (on a sub-facility level); and coordinating TRI and biennial reports under the Resource Conservation and Recovery Act (RCRA).

Significance: Regulatory Program

Legal Authority: 42 USC 9602 /CERCLA 102

CFR Citation: 40 CFR 302

Legal Deadline: None

Abstract: This rule will designate 232 non-CERCLA extremely hazardous substances (EHS), as defined in Section 302 of SARA Title III, as hazardous substances pursuant to Section 102 of CERCLA. Currently, only releases of those EHSs that are also CERCLA hazardous substances are required to be reported to the National Response Center under CERCLA Section 103. Upon designation, potential confusion concerning the different SARA Title III and CERCLA requirements will be reduced by ensuring consistent procedures for reporting releases of all EHSs.

Significance: Regulatory Program

CFR Citation: 40 CFR 300.440

Legal Deadline: None

Abstract: This rule will interpret and codify (1) the requirements of Section 121(d)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) and (2) the revised off-site policy directive (November 13, 1987). Section 121(d)(3) and the directive describe procedures that must be observed when a response action funded under CERCLA or using a CERCLA authority involves off-site transfer of CERCLA wastes. CERCLA Sec. 121(d)(3) specifies that wastes from removal or remedial actions under CERCLA: 1) only be transferred to facilities that are in compliance with Sections 3004 and 3005 of the Resource Conservation and Recovery Act (RCRA), other applicable Federal laws and State laws, and 2) only be transferred to units at hazardous waste land disposal facilities that are not leaking and where releases from other (non-receiving) units at the facility are under a corrective action program. The rule prescribes procedures whereby affected facilities may ask EPA for review of the off-site acceptability determinations.

Significance: Regulatory Program

Legal Authority: 42 USC 9605(a)(8)(A) /CERCLA 105(a)(8)(A); 42 USC 9605(c) /CERCLA 105(c); 42 USC 9618 /CERCLA 118; 42 USC 9625 /CERCLA 125

CFR Citation: 40 CFR 300

Legal Deadline: Final, Statutory, April 17, 1988.

Abstract: This rule revises the Hazard Ranking System (HRS), which is Appendix A of the National Contingency Plan. The HRS is a system for determining the relative risk among releases of hazardous substances. The HRS is the primary mechanism for establishing the National Priorities List under CERCLA. CERCLA, as amended by the Superfund Amendments and Reauthorization Act (SARA) of 1986, requires that HRS be amended to assure, to the maximum extent feasible, that it accurately assesses relative risk to public health and the environment. SARA specifically requires that the HRS take into consideration a number of factors including effects on the human food chain as well as potential air contamination. The HRS must also appropriately assess human health risks associated with contamination of surface waters used for drinking or recreation.

Legal Deadline: None

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency Plan (NCP). CERCLA requires that the Agency revise the NPL at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. Abstract: This is a common Federal policy (model policy) for the protection of human subjects of research conducted, supported, or regulated by all Federal departments and agencies. The purpose of this regulation is to ensure the adequacy and uniformity of the rules, policies, guidelines, and regulations of all Federal departments and agencies regarding the protection of human subjects of biomedical or behavioral research which such departments and agencies conduct or support. Such uniformity will eliminate unnecessary regulation and promote increased understanding and ease of compliance by institutions that conduct federally supported or regulated research involving human subjects. This model Federal policy is based on Subpart A of the regulations of HHS for the protection of human research subjects (45 CFR Part 46).

CFR Citation: 40 CFR 22

Legal Deadline: None

Abstract: The Agency is proposing amendments to the Consolidated Rules of Practice under 40 CFR Part 22. These amendments will include technical amendments correcting the address to which penalty payments are sent, lengthening the period to file an appeal, and modifying the specified procedures for service of process. The Agency will also propose more substantive amendments regarding handling Confidential Business Information, default judgments, and burden of proof on penalty assessments. In addition, Part 22 will need to be amended to implement the 1990 CAA amendments, which will permit civil penalties to be assessed in administrative enforcement hearings.

3529. PROCEDURES AND REQUIREMENTS IMPLEMENTING THE NATIONAL ENVIRONMENTAL POLICY ACT FOR THE EPA'S RESEARCH AND DEVELOPMENT PROGRAM AND FOR PUBLIC AND OTHER FEDERAL AGENCY INVOLVEMENT

Legal Authority: 42 USC 4321

CFR Citation: 40 CFR 6.700

Legal Deadline: None

Abstract: This action amends EPA's National Environmental Policy Act (NEPA) regulation in 40 CFR Part 6, Subpart G which addresses the environmental review procedures for research and development projects undertaken by EPA's Office of Research and Development (ORD). The purpose of this rulemaking is to develop procedures for categorically excluding classes of ORD actions having no significant impact on the environment, from the requirement to prepare an environmental assessment (EA) or an environmental impact statement (EIS). The rulemaking also clarifies the criteria under which EPA would be required to prepare an EIS. This rulemaking will enable EPA to focus its

EPA—GENERAL

Final Rule Stage

resources on assessing research and development projects which have the potential to significantly affect the environment. The revisions are consistent with the Council on Environmental Quality's NEPA regulation in 40 CFR Parts 1500-1508. (cont)

ABSTRACT CONT: This action also revises 40 CFR Part 6, Subpart D which addresses NEPA review procedures for public and other agency involvement. The proposed rulemaking would eliminate the current Agency requirement for public notice of EPA's categorical exclusion determinations, except for the Construction Grants projects. This revision would make the regulation consistent with CEQ and other federal agency NEPA regulations.

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its Semiannual Regulatory Agenda pursuant to Executive Order No. 12291, 3 CFR section 127 (1981 Compilation) and the Regulatory Flexibility Act, 5 U.S.C. chapter 6. The agenda contains all regulations which are scheduled for review or development during the next 12 months.

FOR FURTHER INFORMATION CONTACT: Irene L. Hill, Assistant Legal Counsel for Coordination, Office of the Legal Counsel, Equal Employment Opportunity Commission, 1801 L Street NW., Washington, DC 20507; telephone (202) 663-4669.

SUPPLEMENTARY INFORMATION: The Commission identified thirteen current and projected rulemakings for inclusion in the agenda. Five are new projected rulemakings. Three have been published as ANPRMs. Two have been published as NPRMs. Four are currently under development or review by Commission staff.

Signed in Washington, DC, this 24th day of August 1990.

For the Commission.

Significance: Agency Priority

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which

EEOC

Prerule Stage

relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under EO 12067.

Legal Authority: 29 USC 628 Age Discrimination in Employment Act

CFR Citation: 29 CFR 1627.15

Legal Deadline: None

Abstract: The purpose of the proposed amendment to 29 CFR 1627.15 is to give those covered by the ADEA more specific information about what they should do if they wish to seek an exemption from any or all of the ADEA's prohibitions. The advantage is that the establishment of a specific procedure will facilitate the processing of exemption requests.

3542. EARLY RETIREMENT PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 628

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The ADEA prohibits discrimination on the basis of age with respect to an employee's compensation, terms, conditions, or privileges of employment. In light of recent amendments to the ADEA and several cases dealing with early retirement, questions have arisen regarding the legality of early retirement plans in general and of specific plans. Since the use of early retirement has expanded greatly in recent years, the Commission deems it appropriate to consider the issuance of regulatory guidance in the area. The ANPRM seeks comment on issues such as voluntariness, plan structuring and eligibility to participate. The Commission is reassessing this project in light of the Supreme Court's decision in Public Employees Retirement System of Ohio v. Betts, 109 S. Ct. 2854 (1989).

Legal Authority: 29 USC 628

CFR Citation: 29 CFR 1625.10

Legal Deadline: None

Abstract: The current interpretive regulations at 29 CFR 1625.10 were framed in 1979. Since that time the ADEA has been amended in a manner that necessitates considering revisions to the regulations, for example, the addition of sec. 4(g) to the Act and the lifting of the age 70 cap. Accordingly, the Commission requested public comment to determine whether revisions are necessary and, if so, the nature and scope of any such revision. The continuing viability of this project will be assessed in light of the Supreme Court's decision in Public Employees Retirement System of Ohio v. Betts, 109 S. Ct. 2854 (1989).

Abstract: Section 107(b) of the ADA requires that agencies with enforcement authority for actions which allege employment discrimination under the ADA and section 503 of the Rehabilitation Act of 1973 must develop procedures that ensure that administrative complaints filed under the ADA or the Rehabilitation Act are processed in a manner which avoids duplication of effort and prevents the imposition of inconsistent or conflicting standard by the EEOC and the Department of Labor.

These regulations will contain procedures and standards to ensure that complaints are processed in an effective manner, and that consistent standards are applied to the same requirements imposed by both statutes.

3545. ● PROCEDURES FOR HANDLING COMPLAINTS OF EMPLOYMENT DISCRIMINATION ON THE BASIS OF DISABILITY FILED UNDER THE AMERICANS WITH DISABILITIES ACT AND THE REHABILITATION ACT OF 1973

Legal Authority: 42 USC 12101 et seq; PL 101-336 The Americans With Disabilities Act (ADA)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Section 107(b) of the ADA requires that agencies with enforcement authority for actions which allege employment discrimination under the ADA and section 504 of the Rehabilitation Act of 1973 must develop procedures that ensure that administrative complaints filed under the ADA or the Rehabilitation Act are processed in a manner which avoids duplication of effort and prevents the imposition of inconsistent or conflicting standards by EEOC and the Department of Justice.

These regulations will contain procedures and standards to ensure that complaints are processed in an effective manner, and that consistent standards are applied to the same requirements imposed by both statutes.

Significance: Regulatory Program

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Federal Emergency Management Agency

Semiannual Regulatory Agenda

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 "Federal Regulation" the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period October 1, 1990, to September 30, 1991.

ADDRESSES: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street, SW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: For general information, contact Susan Kantor Bank, Office of General Counsel, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3543. For additional information about a specific regulation, contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" directs each Executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 *et seq.*

In fulfillment of requirements imposed by the Executive order and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations and regulations which will be under review during the period April 1, 1991, to March 31, 1992. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published April 23, 1990, at 55 FR 16902.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations, and organizational and management matters.

Dated: August 29, 1990.

George W. Watson,

Acting General Counsel.

3553. ● NOTICE - FLOOD INSURANCE RATING SYSTEM CHANGES

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: None

Legal Deadline: None

Abstract: FIA has amended its National Flood Insurance Program premium rating system to recognize circumstances within local communities that mitigate or exacerbate the flooding risk, such as the inaction of a community in addressing flood problems or the performance of a community that goes beyond minimum NFIP floodplain management requirements. To assist FIA in improving this new Community Rating System, FIA has asked for input from interested parties regarding recommendations on floodplain management standards for special hazard areas, on credits to address the preservation of wetlands and natural floodplain functions, on other community activities that commenters believe should be eligible for credit, and on procedural and operational matters.

FEMA

Prerule Stage

Legal Deadline: None

Abstract: The comprehensive aspect of the CCA process itself was not created by legislation or even by regulation; Presidential emphasis on grants consolidation and FEMA policy on integrating programs created the CCA. The cooperative agreement aspect of the CCA process is based on PL 95-224, the Federal Grant and Cooperative Agreement Act of 1977. Cooperative agreements are used when stimulating a public purpose (the multiple programs delivered in each CCA are aimed at stimulating public purposes, primarily civil defense). The Federal Civil Defense Act of 1950, as amended, authorizes the major portion of CCA programs and assistance dollars, and is therefore the major legislative authority underpinning the CCA process. Various Civil Preparedness Guides, primarily CPG 1-38 and CPG 1-3 address the CCA process and associated programs. However, a regulation would provide complete notice to States and interested parties and complete the policy and procedural requirements identified by the Office of General Counsel. Specific quantitative estimates cannot be cited.

Abstract: Section 544 of the Housing and Community Development Act of 1987 provided a new benefit to National Flood Insurance Program policyholders:

Payment for demolition or relocation of an insured structure if it is located "along the shore of a lake or other body of water and is certified by appropriate State or loca' land use authority to be subject to imminent collapse or subsidence as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels." FEMA published interim regulations on this subject on September 23 and November 2, 1988, and commissioned an investigation through the National Academy of Sciences to provide a basis for further regulations.

3569. CIVIL DEFENSE: STATE AND LOCAL EMERGENCY MANAGEMENT ASSISTANCE (EMA) PROGRAM

Legal Authority: 50 USC app 2253; Reorganization Plan No. 3 of 1978; EO 12148

CFR Citation: 44 CFR 302, (Revision)

Legal Deadline: None

Abstract: Changes within existing regulation to delete one allocation formula factor. The EMA Program currently has a 4 factor formula. The 5% factor and the 10% factor are so very similar in impact that for the sake of simplification they are to be combined. The formula will thus have only 3 factors. The concern of recipients is that no State will receive less funding than in the previous fiscal year to maintain staff strength. This will be ensured because the regulation change requires restoring any State to its prior year's level in any year when the funding is sufficient.

Legal Authority: 40 USC 476; 42 USC 2000d-1; 20 USC 1681

CFR Citation: 41 CFR 101-8.2

Legal Deadline: None

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer.

Abstract: This amendment provides for the use of automated-teller-machine (ATM) services by authorized Federal employees traveling on official business. An enhancement to the contractor-issued charge card program allows cash withdrawals from ATM's by individual cardholders who are specifically authorized by their agencies to use ATM services. This rule implements the ATM services enhancement, thus offering agencies another method for providing travel

advances to Federal employees on official business. To participate in the program agencies must perform a cost benefit analysis, determine whether the program will be advantageous, and develop program controls. The use of ATM services may reduce the number and amount of outstanding travel advances as well as the administrative expense associated with providing cash advances.

3627. FIRMR IMPROVEMENT PROJECT

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201

Legal Deadline: None

Abstract: In response to recommendations by users of the FIRMR to revise the regulation to make it more readable and useful, GSA plans to restructure the FIRMR. This restructuring will include: the separation of policies and procedures, the separation of contracting from management and use provisions, the reorganization of FIRMR contracting provisions for consistency with the Federal Acquisition Regulation, and the reorganization of the FIRMR's management and use provisions into a life cycle format. As the final draft of each subchapter is completed, GSA requests public comment on the subchapter through a notice of proposed rulemaking. Subchapter D, which deals with acquisition, was completed first. An advanced notice of proposed rulemaking describing the project was published in the Federal Register in January 1988. A notice of proposed rulemaking for Subchapter D was published in the Federal Register in February 1989 and a notice of proposed rulemaking for Subchapter C which deals with management and use of Federal information processing resources and a notice for subchapters A and B was published in the Federal Register on February 6, 1990.

CFR Citation: 41 CFR 101-17

Legal Deadline: None

Abstract: A new and comprehensive permanent FPMR 101-17, Assignment and Utilization of Space, will improve the space delivery process for Federal agencies by making it more efficient, more timely, and better able to deliver quality space that supports agency mission needs. The new FPMR will implement a new space assignment process that emphasizes client service; issue a new comprehensive move policy that clarifies roles and responsibilities; revise the GSA location policy to be more responsive to agency mission needs; revise the standard alterations, which agencies receive upon an initial move, to recognize modern office needs; and revise the space classification definitions to eliminate ambiguity. These changes will result in a more efficient space delivery process that will improve the overall efficiency of government operations. The assignment and utilization of Federal space has been governed by a series of four temporary regulations since 1983. The current FPMR Temporary Regulation D-73 is outdated and is not comprehensive in its coverage of the process for acquisition and assignment of Federal space. The new permanent FPMR will correct these problems.

National Archives and Records Administration

Semiannual Regulatory Agenda

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since April 1990. This agenda was developed under the guidelines in OMB's Memorandum for Regulatory Contacts at Executive Departments and Establishments, dated July 2, 1990. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291, "Federal Regulation."

FOR FURTHER INFORMATION CONTACT: John A. Constance, Director, Policy and Program Analysis Division, (202) 501-5110.

Dated: August 24, 1990.

Don W. Wilson,

Archivist of the United States.

3688. ● NARA EXHIBITION LOAN STANDARDS

Legal Authority: 44 USC 2104a; 44 USC 2109

CFR Citation: 36 CFR 1284

Legal Deadline: None

Abstract: To make the permanently valuable records of the U.S. Government more widely available, NARA may lend for exhibition purposes original records (in sufficiently good condition to withstand the rigors of travel and exhibition) to qualified institutions that will provide care for the borrowed items in accordance with NARA's minimum loan requirements and any additional requirements that are deemed appropriate for particular records. NARA's loan requirements are necessary to ensure that the exhibition of records from its holdings does not conflict with its responsibility for the preservation of those records. This regulation will make NARA minimum loan requirements for security, environmental conditions, lighting, handling, and advance notice more conveniently available to potential borrowers. Since loan requests are reviewed in accordance with established administrative procedures and are subject to existing requirements, no additional costs will be involved.

3689. TRANSFER OF RECORDS TO FEDERAL RECORDS CENTERS

Legal Authority: 44 USC 2907

CFR Citation: 36 CFR 1228.152

Legal Deadline: None

Abstract: This rule will revise two aspects of transmitting records to Federal records centers. One aspect is to require agencies to attach box lists to the Standard Form 135, Records Transmittal and Receipt, when transmitting permanently scheduled and unscheduled records to Federal records centers. Many agencies already maintain such detailed listings for their own use in retrieving stored documents. This information will assist NARA in ensuring the identification and preservation of permanent records. The second change will restrict the transfer of permanent microfilm records to two records centers, the Washington National Records Center and the National Personnel Records Center. This action is necessary to ensure proper storage of potential archival records.

3692. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 44 USC 2104; 44 USC 2504

CFR Citation: 36 CFR 1207

Legal Deadline: None

Abstract: This action proposes a common rule updating and replacing agencies' implementation of OMB Circular A-110 with a single, government-wide common rule establishing consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to institutions of higher education, hospitals, other nonprofit organizations, and commercial or for-profit entities. This result is achieved by amending the common rule issued by the agencies on March 11, 1988, to similarly update and replace implementation of OMB Circular A-102. The provisions of the common rule are largely drawn from the existing departmental rules issued by the several agencies which in the past developed a single, comprehensive rule implementing the circulars. This proposed common rule contains fiscal and administrative requirements applicable to grantees.

3704. COLLECTION OF CLAIMS

Significance: Agency Priority

Legal Authority: PL 97-365; 31 USC 3711; 31 USC 3716 to 3718; 5 USC 5514; 5 USC 552a

CFR Citation: 45 CFR 1150

Legal Deadline: None

Abstract: The proposed rule amends the National Endowment for the Arts regulation for collecting debts. Principally, the amendments implement the Debt Collection Act of 1982 (PL 97-365), which amended the Federal Claims Collection Act of 1966 (31 USC 3711, 3716-3718) to authorize among other things, charging of interest penalties and administrative costs, and the use of administrative offset, private collection agencies and credit agencies by the Government. The amendments also implement governmentwide regulations issued by the Department of Justice and the General Accounting Office (49 FR 8889) and Office of Personnel Management (49 FR 27470).

Unified Agenda of Regulations

AGENCY: National Endowment for the Humanities.

ACTION: Publication of the unified agenda of regulations.

SUMMARY: Pursuant to the Regulatory Flexibility Act, Pub. L. 96-354, and Executive Order 12291, "Federal Regulation," dated February 17, 1981, the National Endowment for the Humanities is required to publish, in April and October of each year, an agenda of proposed regulations that the Endowment has issued or expects to issue and current rules that are under agency review.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen J. McCleary, Deputy General Counsel, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., Washington, DC 20506, (202) 786-0322.

3710. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS AND ACTIVITIES

Legal Authority: 42 USC 2000(d) to 2000(d)(4)

CFR Citation: 45 CFR 1110; 45 CFR 1173

Legal Deadline: None

Abstract: This proposed regulation implements Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin in federally assisted programs and activities, with respect to programs and activities receiving Federal financial assistance from the National Endowment for the Humanities.

Programs and activities receiving Federal financial assistance from the National Endowment for the Humanities are currently covered by a regulation implementing Title VI that was issued by the National Foundation on the Arts and the Humanities in 1973 (45 CFR 1110). The proposed rule will remove NEH programs from the coverage of the earlier rule and replace it with a new part applicable only to NEH-assisted programs and activities. Programs and activities assisted by the National Endowment for the Arts remain covered under the existing regulation.

Federal Regulation; Semiannual Regulations Agenda

AGENCY: National Science Foundation.

ACTION: Publication of semiannual regulations agenda.

SUMMARY: The National Science Foundation (NSF) publishes its semiannual agenda of regulations under development or review as required by Executive Order 12291, "Federal Regulation" (46 FR 13193, February 17, 1981). This agenda has been prepared in accordance with OMB regulations (41 U.S.C. 402).

CFR Citation: 45 CFR 671

Legal Deadline: None

Abstract: This action will amend NSF's regulations by adding a new Part 671 (45 CFR 671), entitled "Measures to Control Discharge and Disposal of Harmful Pollutants in Antarctica; Pollution Control Permitting Requirements." The Antarctic Conservation Act of 1978 requires NSF to issue regulations designating any substance that, if introduced into Antarctica, may create hazards to human health, harm living resources or marine life, damage amenities, or interfere with other legitimate uses of Antarctica. The Act also requires NSF to establish regulations and permitting procedures that prevent or control the discharge of such pollutants from any source within Antarctica.

Legal Authority: 42 USC 1870(a) The Natl. Sci. Found. Act of 1950, as amended; 35 USC 200 et seq The Bayh-Dole Act, as amended

CFR Citation: 45 CFR 650

Legal Deadline: None

Abstract: The Bayh-Dole Act (35 USC 200 et seq) was amended by Title V of PL 98-620 (98 Stat. 3384, 3388). The Department of Commerce has prepared a governmentwide implementing regulation. The Foundation's Patents regulation (45 CFR 650) conforms to it. Because the revision to the NSF patents regulation will merely echo a governmentwide regulation on which the public will have had an opportunity to comment, the Foundation expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Timetable:

Additional Information: The notable changes to be made in the revision of the NSF patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and elimination of the Foundation's authority to waive the governmen license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by amendments to the Bayh-Dole Act.

Abstract: This action will amend NSF's regulations by adding a new Part 641 (45 CFR 641), entitled "Environmental Impacts Abroad and Related Procedures." Executive Order 12114 directs every Federal agency to publish appropriate procedures for evaluating the environmental impacts of major Federal actions outside the United States, specifically "actions significantly affecting the environment of the global commons outside the jurisdiction of any nation (e.g., the oceans or Antarctica)." These regulations will set forth the procedures for assessing environmental impacts abroad, and determining the appropriate environmental review document to be used while making decisions concerning such major Federal actions.

Significance: Regulatory Program

Legal Authority: 42 USC 1870(a)

CFR Citation: 45 CFR 690

Legal Deadline: None

Abstract: This final rule will add NSF regulations for the protection of human subjects at Title 45 CFR Part 690 to incorporate changes developed by the Interagency Human Subjects Coordinating Committee, Federal Coordinating Council on Science Engineering and Technology (FCCSET). The Committee drafted a common rule for Federal departments and agencies conducting or supporting research involving human subjects which was based on the HHS regulations. This effort was in response to a key recommendation of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research in the First Biennial Report in 1981.

OFFICE OF GOVERNMENT ETHICS

5 CFR Ch. XVI

Semiannual Regulatory Agenda; October 1990

AGENCY: Office of Government Ethics.

ACTION: Semiannual agenda of substantive regulations.

SUMMARY: The following Office of Government Ethics (OGE) substantive regulations are scheduled for development or review during the period from October 1, 1990, through September 30, 1991. This agenda fulfills OGE's responsibility to publish a semiannual regulatory agenda under Executive Order 12291, "Federal Regulation," and has been prepared in accordance with guidance received from the Office of Management and Budget. None of the OGE regulations in this October 1990 agenda will have a significant economic impact on a substantial number of small entities as defined under the Regulatory Flexibility Act, 5 U.S.C. ch. 6. In addition, none of the listed OGE regulatory actions are major rules under E.O. 12291 nor procurement-related. Furthermore, the organizational and procedural rules of OGE are not listed herein (See section 1(a)(3) of E.O. 12291.).

This publication in the **Federal Register** does not impose a a binding obligation on the Office of Government Ethics with respect to any particular item on its agenda. The dates shown for the future steps of each action are estimates and not commitments to act by the date shown. Moreover, other substantive OGE regulatory actions, in addition to the entries listed, are not precluded.

FOR FURTHER INFORMATION CONTACT: William E. Gressman, Office of Government Ethics, Suite 500, 1201 New York Avenue NW., Washington, DC 20005-3917, telephone (202/FTS) 523-5757, FAX (202/FTS) 523-6325.

Approved: September 13, 1990.

Stephen D. Potts,

Director, Office of Government Ethics.

Office of Management and Budget

Semiannual Regulatory Agenda

OFFICE OF MANAGEMENT AND BUDGET (OMB)

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Circulars and Policy Letters Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB policy guidelines are issued under authority derived from several sources including: Subtitles I, II, and V of title 31, United States Code, Executive Order No. 11541, and other specific authority as cited. The agenda includes actions on issuances which are not guidelines, but which are of public interest. While it is presented in the standard Governmentwide format of prerule, proposed rule, and final rule stages, the entries are not rules.

OMB Circulars and OFPP Policy Letters are policy guidelines that communicate Governmentwide policy of a continuing nature. For purposes of this agenda, we have excluded directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Darrell Johnson, (202) 395-7250, at the above address.

Dated: September 26, 1990.

Darrell A. Johnson,

Assistant Director for Administration.

Significance: Agency Priority

Legal Authority: PL 100-418, Sec 7002

CFR Citation: None

Legal Deadline: Other, Statutory, February 1990.
OFPP must present a report to Congress by October 31, 1990, which includes policy guidance or recommended legislative changes on factors to be used in making determinations of country of origin.

Abstract: The Buy American Act (the Act) was enacted in 1933 to ensure Federal agencies gave domestic products priority in competition for government contracts. The Act provides that, unless it is inconsistent with the public interest or unreasonably costly, all materials and supplies purchased by any department of the Federal Government, and all materials and supplies furnished by contractors doing work for the Federal Government, be produced within the jurisdictional limits of the United States. In 1988, the Act was amended by several sections of Title VII of PL 100-418. Among other things, the 1988 amendments, directed the Administrator of Federal Procurement Policy to "conduct an assessment of the rules currently used this Act for making determinations of country of origin and alternatives to such rules." In conducting this

OMB — Prerule Stage

assessment, the administrator was directed to identify and evaluate reasonable alternative rules of origin, including one which requires that a determination be made on the basis of total cost. The results of this analysis, including policy guidance and recommended legislative changes, were to be submitted to designated committees of Congress (cont)

Abstract: The proposed circular would have replaced OMB Circulars No. A-102, "Grants and Cooperative Agreements with State and Local Governments", and No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations", to contain guidance to Federal agencies on grants management issues which are internal to the Federal agencies. Based upon comments received, OMB no longer plans to merge these circulars.

3764. RETIREMENT; CSRS OFFSET SERVICE

Legal Authority: 5 USC 8347

CFR Citation: 5 CFR 831, Subpart J

Legal Deadline: None

Abstract: The Federal Employees' Retirement System Act of 1986 provided that certain employees would continue to be covered by both the Civil Service Retirement System and social security. Their CSRS deductions are offset by social security taxes (FICA), and, when they retire, their CSRS benefits are offset by the value of this service in their social security benefits. The regulations will implement this provision of law.

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

CFR Citation: 5 CFR 930, Subpart B

Legal Deadline: None

Abstract: OPM is proposing to amend its regulations governing the appointment, pay, and removal of administrative law judges. The proposed amendment would permit an administrative law judge to transfer to another agency before completing 1 year of service. If the gaining and losing agency agree to the transfer before the usually required 1 year of service following appointment is completed, such transfers should be permitted under the regulations so that the gaining agency does not have to request a variation from established regulations to effect the transfer.

Panama Canal Commission

Semiannual Regulatory Agenda

PANAMA CANAL COMMISSION (PANAMA)

PANAMA CANAL COMMISSION

22 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, 2000 L Street NW., Suite 550, Washington, DC 20036-4998, (202) 634-6441 TDD; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011-5000.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, require that executive agencies publish in the Federal Register a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared pursuant to the guidelines established by the Office of Management and Budget.

Dated: August 27, 1990.

Michael Rhode, Jr.,

Secretary, Panama Canal Commission.

PANAMA CANAL COMMISSION (PANAMA) — Prerule Stage

3821. RULES FOR MEASUREMENT OF VESSELS

Significance: Agency Priority

Legal Authority: PL 96-70, Sec 1601

CFR Citation: 35 CFR 135

Legal Deadline: None

Abstract: In July 1982, 48 nations, representing more than 80 percent of world shipping, began implementing a new uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. Final implementation is scheduled for July 1994. The present Panama Canal measurement system is based upon the old national tonnage measurement system. The Panama Canal Commission is currently studying the possibility of adapting its tonnage measurement system to one which is compatible with the 1969 Convention. This would eliminate the need for vessels to be measured twice, once under the new system and again under the old system for Panama Canal assessment purposes. While no timetable for rulemaking has been established, tentative plans are to target any possible change to the Panama Canal measurement rules to the July 1994 final implementation of the 1969 Convention.

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from October 1, 1990, through september 30, 1991. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps' regulations or this semiannual agenda, contact Ms. Kirby Mullen, Associate General Counsel, U.S. Peace Corps 1990 K Street NW., Washington, DC 20526, (202) 606-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year. The regulations being considered by U.S. Peace Corps are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. The U.S. Peace Corps has has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Dated: August 15, 1990.

Pension Benefit Guaranty Corporation

Semiannual Regulatory Agenda

PENSION BENEFIT GUARANTY CORPORATION (PBGC)

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation (PBGC).

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next 12 months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Office of the General Counsel, Code 22500, Pension Benefit Guaranty Corporation, 2020 K Street NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact J. Ronald Goldstein, Attorney, Office of the General Counsel, (202) 778-8850. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive order requires that the agenda also include those currently effective regulations that are being reviewed by the Agency pursuant to the Executive order. The Regulatory Flexibility Act, Pub. L. 96-354, 5 U.S.C. 601, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next 12 months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings.

James B. Lockhart III,

Executive Director, Pension Benefit Guaranty Corporation.

3831. PLAN RULES FOR REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1387(b)

CFR Citation: 29 CFR 2647 (Amendment)

Legal Deadline: None

Abstract: Under section 4207(a) of ERISA, the PBGC has issued a regulation (29 CFR Part 2647) providing for the reduction or waiver of an employer's liability for complete withdrawal upon the employer's resumption of participation under the plan from which it withdrew. The statute also requires the PBGC to prescribe procedures and standards under which multiemployer plans may adopt their own rules abating complete withdrawal liability upon an employer's return to the plan (section 4207(b)).

The purpose of letting plans adopt their own abatement rules is obvious: a specific rule adopted by a plan may well work better under the facts and circumstances of that particular plan than the broad rules adopted by the PBGC. This regulation will permit a plan to fashion the rules it needs to encourage the return of withdrawn employers, while at the same time protecting the plan from the loss of withdrawal liability payments without a compensating resumption of contributions to the plan by a formerly withdrawn employer. The PBGC is unable to (cont)

3832. PAYMENT OF BENEFITS IN PBGC-TRUSTEED PLANS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: 29 CFR 2624

Legal Deadline: None

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provisions and section 4022 of ERISA. This regulation will contain rules and policies relating to the payment of such benefits. The regulation will enable the PBGC to process and administer PBGC-trusteed plans more efficiently with resultant cost savings. It also will reduce costs to the public and the PBGC by providing payment rules, thereby reducing the number of requests for administrative review. Subsequent to issuance of its October 1989 regulatory agenda, the PBGC has decided to reduce the scope of this regulation. As originally conceived, the regulation was to include all rules and procedures with respect to payment of benefits in trusteed plans, so that it would be the single source for members of the public for all questions dealing with PBGC benefit payment. Thus, many of the provisions in the regulation

were included only for the sake of completeness and not because they were matters required by law to be issued in a regulation. (cont)

Additional Information: ABSTRACT CONT: The PBGC has now concluded that the provisions (most of which are procedural in nature) can be written in a manner that would be more easily understood by plan participants and beneficiaries if they were removed from the regulation and its various legal structural and stylistic requirements. Accordingly, work on this regulation has been delayed while PBGC staff identify those provisions that can be dropped from the regulation and decide on how best to convey this material to the public, e.g., pamphlets or form letters to be distributed to retirees and other participants when PBGC trustees a plan.

Therefore, the proposed regulation that will be issued will be much narrower in scope, dealing only with those matters on which public rulemaking is required or appropriate.

3433. PAYMENTS BY PBGC OF UNFUNDED NONGUARANTEED BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322(c) (Supp. V 1987)

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The Pension Protection Act repealed ERISA section 4049 and 4062(c). Those provisions established new employer liability to plan participants and beneficiaries in the event of a distress termination or involuntary termination by the PBGC of a plan without sufficient assets to pay all benefit commitments; the section 4049 trust was the vehicle for collecting and distributing these liability amounts. This system proved flawed in several respects, however, and Congress therefore created a new scheme by which to channel employer liability recoveries to plan participants and beneficiaries, amended ERISA section 4022(c).

Under section 4022(c), participants no longer have a direct claim for employer liability. Instead, the PBGC's claim covers both its shortfall (unfunded guaranteed benefits) and participants' losses (unfunded benefit liabilities in excess of guaranteed benefits). In turn, the PBGC is to pay a portion of its employer liability recovery to participants and beneficiaries. The amount to be paid is based on the PBGC "recovery ratio" (as defined in amended sec. 4022(c)(3)).(cont)

Additional Information: This new statutory rule contains several ambiguities and also leaves to the PBGC the development of specific rules and procedures necessary to make this system work. The regulation will, for example, contain rules on how the PBGC will value its employer liability recoveries for purposes of computing the recovery ratio, whether the allocation of amounts payable under this provision will be done as part of the regular section 4044 asset allocation, and whether the PBGC will pay these benefits by increasing the amount of annuity payments it is making to participants or making lump sum payments.

3434. RETIREMENT EQUITY ACT AMENDMENTS - VALUATION OF PLAN BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341 (Supp. V 1987)

CFR Citation: 29 CFR 2619

Legal Deadline: None

Abstract: The Retirement Equity Act of 1984 ("REA") requires plans to provide certain benefits, prohibits the elimination of benefit options and certain early retirement benefits and retirement- type subsidies, and mandates the range of interest rates that may be used in calculating the amount of a non-consensual lump sum benefit. The Tax Reform Act of 1986 ("TRA '86") slightly modified the interest rate restrictions and extended them to the calculation of all lump sum benefits.

These rules necessitate several amendments to the PBGC's valuation of benefits regulation (29 CFR Part 2619). The major changes will address the rules on determining the form of benefit to be valued on plan termination and the interest rate rules for lump sum payments in standard terminations.

3836. REDUCTION OR WAIVER OF PARTIAL WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(a)(3)

CFR Citation: 29 CFR 2648

Legal Deadline: None

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal liability arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(b)

CFR Citation: 29 CFR 2649

Legal Deadline: None

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

Thus, there is no double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan. This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

3837. DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642 (Amendment)

Legal Deadline: None

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(f) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

3838. DISTRESS TERMINATIONS OF SINGLE-EMPLOYER PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(c) (Supp. V 1987)

CFR Citation: 29 CFR 2616

Legal Deadline: None

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 substantially revised ERISA section 4041 dealing with the voluntary termination of single-employer pension plans. Under amended section 4041, a plan may voluntarily terminate only if the termination satisfies the statutory conditions for a standard or distress termination. These rules were further modified by the 1987 Pension Protection Act, which increased the benefits that must be provided, or for which the employer maintaining the plan is liable, upon plan termination. Thus, under current law, unless a plan has sufficient assets to satisfy all plan benefit liabilities, it may voluntarily terminate only in a "distress" termination; i.e., a termination in which the plan sponsor and all members of its controlled group are able to demonstrate either such financial hardship or unduly burdensome pension costs that, as a practical matter, they are unable to continue to maintain the plan. Additional Information: ABSTRACT CONT: The statutory rules and procedures for distress terminations are substantially different from the prior rules and procedures for terminating insufficient plans. Therefore, it is necessary to revise the PBGC's plan termination regulations to reflect these new rules and procedures. This regulation covering distress terminations and a companion rule covering standard terminations (to be codified in Part 2617) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Although the notice of proposed rulemaking for this regulation was issued prior to enactment of the Pension Protection Act, the final rule will reflect the relevant statutory changes from that Act.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(b) (Supp. V 1987); 29 USC 1344 (Supp. V 1987)

CFR Citation: 29 CFR 2617

Legal Deadline: None

Abstract: Under ERISA Section 4041, as amended by the Single-Employer Pension Plan Amendments Act of 1986 and the Pension Protection Act, absent a showing of financial hardship or unduly burdensome pension costs that would satisfy the requirements for a distress termination, a single-employer plan may be voluntarily terminated only if it is sufficient for all benefit liabilities (i.e., all benefits provided under the plan on the termination date, whether or not vested). This is referred to as a "standard" termination. SEPPAA also modified many of the termination rules and procedures that applied under prior law, both to increase the protections afforded plan participants and beneficiaries and to simplify and expedite the PBGC's processing of these sufficient plan terminations. It is, therefore, necessary to promulgate this new regulation implementing the new rules and procedures for standard terminations. This regulation and its companion regulation covering distress terminations (to be codified in Part 2616) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Abstract: The Single-Employer Pension Plan Amendments Act of 1986

PBGC — Final Rule Stage

("SEPPAA") and the Pension Protection Act ("PPA") made several changes in Title IV rules and procedures that affect and, in some cases, override portions of several PBGC regulations. For this reason, these regulations - administrative review of agency decisions, benefit reductions in terminated plans, reportable events and employer liability - must be amended to conform them to the current law. For example, because SEPPAA altered the determinations that the PBGC may make with respect to voluntary plan terminations, the list in 29 CFR 2008.1(b) of determinations subject to agency review must be amended.

Similarly, SEPPAA contained, for distress terminations, specific benefit cutback rules. These rules differ somewhat from those set forth in 29 CFR Part 2623 and, therefore, conforming amendments to Part 2623 are required. SEPPAA and the PPA significantly changed the rules on employer liability to the PBGC in distress and involuntary terminations. Now, an employer is liable to the PBGC for the total plan underfunding, (cont)

Further, the 30 percent of net worth limitation is now relevant only in determining the amount subject to PBGC's statutory lien and the status of PBGC's claim in bankruptcy. The employer liability regulation needs to be amended to reflect these changes.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1082(f)

CFR Citation: 29 CFR 2615

Legal Deadline: None

Abstract: As part of its pension plan funding reforms, the Omnibus Budget Reconciliation Act of 1987 amended Section 302 of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and Section 412 of the Internal Revenue Code of 1986 (IRS) to give a pension plan a lien for missed contributions. The lien, which is against the assets of the contributing sponsor (and all members of the contributing sponsor's controlled group) if the sponsor fails to make required contributions and the total of missed contributions and interest thereon exceeds $1 million (ERISA Section 302(f), IRC Section 412(n)). The lien arises on the 60th day following the due date of the missed contribution. This lien may be perfected and enforced only by the Pension Benefit Guaranty Corporation (PBGC) (or, at its direction, by the contributing sponsor). In order to enable the PBGC to carry out this function, the law requires a contributing sponsor that is subject to the lien to notify the PBGC within 10 days after the due date of an unpaid contribution. The law does not, however, specify the contents of this notice. This regulation will establish the contents of the notice.

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 23rd semiannual agenda of regulations. Although not a regulatory agency, SBA has attempted to draft agendas that meet both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291, the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, and Public Law 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual agency official listed for the particular item.

For information concerning SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Patricia R. Forbes, Chief Counsel for Legislation, Small Business Administration, 1441 L Street NW., Washington, DC 20416, (202) 653-6573.

SUPPLEMENTARY INFORMATION: The SBA agenda contains many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemakings, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the 12-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Dated: August 30, 1990.

Susan Engeleiter,

Administrator.

Abstract: These regulations would implement the passage of the Small Business and Federal Procurement Competition Enhancement Act of 1984, which authorized the placement of Small Business Administration (SBA) Breakout Procurement Center Representatives (BPCRs) at major procurement centers and the Small Business Administration Reauthorization and Amendment Act of 1988, which further expanded the authority of such personnel. The purpose of these proposed regulations is to advise Government personnel of the division of responsibilities that must be performed to implement the law. The current regulations in 13 CFR Part 125-6, Government Prime Act Contracts Assistance, addresses only one portion of the procurement center representatives (PCR) program as it relates to those PCRs known as Traditional PCRs. This group of individuals is basically responsible for the small business set-aside program versus the mandate to BPCRs to breakout acquisitions for full and open competition. The Federal Acquisition Regulations contain basic regulations for the breakout (cont)

CFR Citation: 13 CFR 146

Legal Deadline: NPRM, Statutory, December 23, 1989.
OMB published a government-wide interim final guidance on this subject December 20, 1989. 54 FR 52305, thereby meeting the statutory deadline.

Abstract: Section 319 of Pub. L. 101-121 generally prohibits recipients of Federal contracts, grants or loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant or loan. Section 319 also requires that each person who requests or receives a Federal contract, grant, cooperative agreement, loan, or a Federal commitment to insure or guarantee a loan, must disclose lobbying activities. This Office of Management and Budget crafted common rule will implement this law.

Regulatory Agenda

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations. However, TVA has four regulations under development, has published a notice of intent with regard to a fifth regulation, and has published a notice of proposed rulemaking with regard to a sixth regulation. In addition, TVA has published an interim final common rule with regard to a seventh regulation. TVA is therefore publishing a regulatory agenda in voluntary compliance with Executive Order 12291.

3016. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470mm

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

3019. PROTECTION OF ARCHAEOLOGICAL RESOURCES; UNIFORM REGULATIONS

Legal Authority: 16 USC 470aa to 470mm

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The proposed rule would amend the sections in the final uniform regulations to implement recent amendments to the Archaeological Resources Protection Act of 1979. Principally, these changes address public awareness programs, archaeological surveys and schedules, and guidance to Federal agencies on the disposition of human remains and directly associated objects found at archaeological sites. No direct costs to the public are anticipated, as the proposed rule would deal primarily with management and protection of archaeological resources by Federal agencies.

3920. PROTECTION OF ARCHAEOLOGICAL RESOURCES; UNIFORM REGULATIONS

Legal Authority: 16 USC 470ii(a)

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The proposed rule would revise the prohibited acts section of the uniform regulations to conform to recent amendments to the Archaeological Resources Protection Act, thus enabling Federal land managers to assess civil penalties for the attempt to excavate, remove, damage, alter, or otherwise deface archaeological resources. The proposed rule would thus affect persons who make unauthorized use of archaeological resources or attempt to do so.

3921. NEW RESTRICTIONS ON LOBBYING

Significance: Regulatory Program

Legal Authority: 16 USC 831 to 831dd; 31 USC 1352

CFR Citation: 18 CFR 1315, (New)

Legal Deadline: None

Abstract: By this regulation the Tennessee Valley Authority adopts a common interim final rule issued in response to Section 319 of Public Law 101-121. Section 319 generally prohibits recipients of Federal contracts, cooperative agreements, grants, and loans from using appropriated funds for lobbying the executive or legislative branches of the Federal Government in connection with a specific contract, cooperative agreement, grant, or loan. Section 319 also requires that each person who requests or receives a Federal contract, cooperative agreement, grant, loan, or a Federal commitment to insure or guarantee a loan must disclose lobbying.

Semiannual Agenda

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in compliance with Executive Order 12291, Federal Regulation. This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions, however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Ms. Sharon A. Kiser, FAR Secretariat, (202) 501-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FACs). None of the regulations listed in this agenda are considered major under Executive Order 12291, Federal Regulation.

Dated: August 31, 1990.

Albert A. Vicchiolla,

Director, Office of Federal Acquisition Policy.

Commodity Futures Trading Commission

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION (CFTC)

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules, which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others on the agenda.

ADDRESSES: Comments should be sent to: Gerry Smith, Special Assistant to the Executive Director, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, [202] 254-6080.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* (RFA), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of April and October of each year, each agency shall publish in the Federal Register a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) a summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) the name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules, which it presently expects may be considered during the course of the next year, irrespective of their potential impact on small entities.[1]

The Commission's agenda represents its best estimate of significant rules, which will be considered over the next 12 months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its October 1990 regulatory flexibility agenda as part of the Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's October 1990 regulatory flexibility agenda is set forth below.

Issued in Washington, DC, on September 10, 1990, by the Commission.

Jean A. Webb,

Secretary of the Commission.

4036	Delegation of Authority to Publish Exchange Rule Amendments	3038-AA76

[1] The Commission has published its definition of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (April 30, 1982). Pursuant to these definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda, which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar and, on a weekly basis, an advisory which list rules that the Commission is considering or will consider in the near future.

4033. ORDERS FROM ANOTHER EXCHANGE MEMBER ON THE FLOOR

Legal Authority: 7 USC 6; 7 USC 6g; 7 USC 7; 7 USC 7a; 7 USC 12a

CFR Citation: 17 CFR 1.35

Legal Deadline: None

Abstract: Currently, regulation 1.35 (a-1) (3) exempts a member receiving an order from another member on the floor from the requirement that an order ticket be prepared and time stamped upon receipt, if the member receiving such order notes on his trading card or other record the time of execution to the nearest minute. The anticipated proposed regulation will amend existing regulation 1.35 to require that an order ticket be prepared for orders placed by members on the floor of an exchange with another member for execution (CTI 3 trades) as is presently required for all other orders. Alternatively, the proposed regulation may require other audit trail improvements for such orders. The proposed amendment is intended to improve the available audit trail for such orders so that trading activity may be better monitored. The proposed regulation will contain an exemption for certain inter-commodity or futures/option spread transactions to preserve the efficient execution of such orders.

COMMODITY FUTURES TRADING COMMISSION (CFTC) — Proposed Rule Stage

4037. MINIMUM FINANCIAL AND RELATED REPORTING REQUIREMENTS FOR FUTURES COMMISSION MERCHANTS

Legal Authority: 7 USC 6c; 7 USC 6f; 7 USC 6g; 7 USC 12a

CFR Citation: 17 CFR 1.12; 17 CFR 1.17

Legal Deadline: None

Abstract: The Commission adopted two amendments to its minimum financial and related requirements for futures commission merchants (FCMs). One amendment preserves the one-day grace period for debit/ deficit accounts unless the account had been in debit/deficit status on the previous business day and the previous day's debit or deficit was not timely satisfied in its entirety by the deposit of new funds. The second amendment is an enhancement of the financial early warning system which requires an FCM to notify its designated self-regulatory organization and the Commission immediately when it determines that an account it is carrying is undermargined by an amount which exceeds its adjusted net capital. The Commission also reproposed a rule to clarify the requirements for and treatment of a guaranteed account.

4038. DISTRIBUTION OF "RISK DISCLOSURE STATEMENT" BY FUTURES COMMISSION MERCHANTS AND INTRODUCING BROKERS

Legal Authority: 7 USC 6(b); 7 USC 6b; 7 USC 6g(1); 7 USC 6o; 7 USC 12a(5); 7 USC 24

CFR Citation: 17 CFR 1.55; 17 CFR 30.6; 17 CFR 33.7; 17 CFR 190.10

Legal Deadline: None

Abstract: The Commission is considering whether to amend Rule 1.55, its basic rule with respect to risk disclosure by futures commission merchants and introducing brokers. Any such amendments would be designed to further simplify risk disclosure with respect to trading of domestic and foreign futures and options products so as to reduce the number of separate risk disclosure documents required by the Commission,

CFTC — Proposed Rule Stage

the National Futures Association and other self-regulatory organizations (SROs), including foreign SROs. The CFTC will also review its disclosure requirements concerning futures and options transactions to identify potential means by which new trading systems can be accommodated without creating undue disclosure burdens.

Legal Deadline: None

Abstract: The Commission will undertake a rulemaking proceeding to revise its rules relating to procedures concerning the denial, conditioning, suspension, restriction or revocation of registration of industry professionals and firms subject to a statutory disqualification. The purpose of these rule amendments is to provide all persons subject to a statutory disqualification, whether the person is an applicant for registration or a registrant, with the same procedural rights, in line with the recent Commission decision --In the Matter of Elizabeth A. Kangles and In the Matter of Mark W. Chamberlain -- CFTC Docket No. SD-88-4 and SD-88-6 (June 6, 1990). The Commission may also revise certain other of its rules relating to registration of industry professionals.
